

METRONET — LOCAL CONTENT

670. Hon COLIN TINCKNELL to the minister representing the Minister for State Development, Jobs and Trade:

The government has identified a 50 per cent target for local content on Metronet.

- (1) What is the definition of “local content”?
- (2) Is it exclusively WA business or does it include other Australian states?

Hon ALANNAH MacTIERNAN replied:

I thank the member for the question. I have an answer in my file, but I have not seen it before and I want to get further information. I would ask the member to perhaps ask the question again tomorrow.
