

WATER CORPORATION — INFRASTRUCTURE — SALMON GUMS

1363. Hon COLIN de GRUSSA to the parliamentary secretary representing the Minister for Water:

I refer to the assets owned and/or managed by the Water Corporation at Salmon Gums.

- (1) What is the amount of water currently stored in each of the following —
 - (a) Water Corporation dam 1;
 - (b) Water Corporation dam 2; and
 - (c) the quarry reservoir?
- (2) What works have been carried out during 2021–22, 2022–23 and 2023–24 to improve the catchments for the assets set out in (1)?

Hon PIERRE YANG replied:

I thank the honourable member for some notice of the question. The following answer has been provided by the Minister for Water.

- (1)
 - (a) There is a total of 5 590 kilolitres.
 - (b) There is less than 7 256 kilolitres.
 - (c) There is less than 5 946 kilolitres.
- (2) A refurbishment of the catchment was undertaken in 2020. Since this time, the Water Corporation has continued to undertake routine maintenance activities, including vegetation control as required.
