Consistent with the State Supply Commission Open and Effective Competition Policy, in the past financial year was there any repeat (i.e. ad-hoc monthly supply without going to tender) good or service supplied to any agency, department, government trading enterprise or board within the Minister's portfolio with a monetary value from \$50,000 up to \$250,000, and if so:

- (a) What was the nature of the good or service repeatedly supplied;
- (b) What was the individual value of (a);
- (c) Why was this not put out to a tender process; and
- (d) What officers were responsible for the initial procurement and invoice payment of each supply?
