

HEALTH — AMBULANCE RAMPING — WAITLISTS — STAFF

882. Ms L. METTAM to the Premier:

I have a supplementary question. Is it not time to admit that the only constant factor in the deterioration of our health system since 2017 is the Premier?

Mr R.H. COOK replied:

As we farewell the students of Mullaloo Beach Primary School, even they saw the statistics and the evidence and understood the blow-out in elective surgery wait times under that mob and the chaos and dysfunction of the former government. Even the kids of Mullaloo primary are waving the member goodbye.
