

CORONAVIRUS — ROAD MAP

850. Hon COLIN TINCKNELL to the Leader of the House representing the Premier:

Given the Premier's continued reassurance that his Labor government has a COVID-19 road map in place for Western Australia, can he confirm whether his road map uses the same modelling that the Victorian Labor government used to generate its road map for Melbourne; guarantee that Perth will not be plunged into lockdown and put under curfew if there are more than an average of five new COVID cases statewide over 14 days; and say what threshold rate of infections would trigger a lockdown and curfew in Perth and/or Western Australia?

Hon SUE ELLERY replied:

I thank the honourable member for some notice of the question.

All future decisions around the implementation or easing of restrictions in Western Australia will be made on the advice of the Chief Medical Officer.
