

**CITY OF BUNBURY PUBLIC PLACES AND  
LOCAL GOVERNMENT PROPERTY LOCAL LAW 2020 — DISALLOWANCE**

*Discharge of Order*

**HON MARTIN PRITCHARD (North Metropolitan)** [2.14 pm] — without notice: I move —

That order of the day 1, City of Bunbury Public Places and Local Government Property Local Law 2020 — Disallowance, be discharged from the notice paper.

**The PRESIDENT:** Members, the honourable member has moved that motion. All those of that opinion say aye, to the contrary no. I think the ayes have it. Before I give Hon Martin Pritchard the call again, I should point out that there are a number of motions ahead of us regarding the discharge of orders of the day, so we will just work our way methodically through them.

*Point of Order*

**Hon SUE ELLERY:** President, the normal practice is that the house would be given a reason, and normally it is that any issues that have been identified as potentially problematic have been resolved. I wonder whether we are able to get a reasoning for each of these motions.

**The PRESIDENT:** Honourable member, was the reason for the discharge not included in your statement?

**Hon MARTIN PRITCHARD:** No, it was not, I am afraid, President, but I am happy to give a reason. The reason is that I and, indeed, the Standing Committee on Delegated Legislation are satisfied that all the concerns have now been resolved.

**The PRESIDENT:** Thank you for pointing that out, Leader of the House. Honourable member, I request that you consider including reasons in the next bundle of motions that you are about to bring to us.

*Debate Resumed*

Question put and passed.
