

WOMEN'S AND BABIES' HOSPITAL — RELOCATION

489. Ms L. METTAM to the Premier:

I have a supplementary question. Noting the Premier's and his minister's reliance on the Infrastructure WA report, which was made after the captain's call —

The SPEAKER: Member, we are not noting anything; you are asking a question, please.

Ms L. METTAM: Can the Premier highlight to everyone in this chamber where in the business case it states that the preferred option for the women's and babies' hospital is to move the hospital to Fiona Stanley Hospital?

Several members interjected.

The SPEAKER: Order, please members!

Mr R.H. COOK replied:

Madam Speaker —

Several members interjected.

The SPEAKER: Sorry, I ask the Leader of the Liberal Party and the Minister for Health to desist and the Premier to respond.

Mr R.H. COOK: Perhaps the member for Vasse could have read the business case herself and then perhaps she would not have asked this question in the first place.
