

SOUTH COAST MARINE PARK — PROPOSED DRAFT ZONING SCHEME

**337. Hon COLIN de GRUSSA to the parliamentary secretary representing the Minister for Fisheries:**

I refer to the proposed south coast marine park.

- (1) Has the Department of Primary Industries and Regional Development completed an assessment of the impact on the commercial and recreational fishing sectors of the proposed sanctuary zones submitted for consideration by the community reference committee at its final meeting?
- (2) If yes to (1), did the assessment identify any of the following —
  - (a) a loss of livelihood and viability for commercial fishers;
  - (b) a risk that entire fisheries would be rendered unviable;
  - (c) impacts to regional development opportunities across the broader economy;
  - (d) a reduction in social and community amenity; and
  - (e) that the commercial and recreational fishing sectors would suffer losses?

**Hon KYLE MCGINN replied:**

I thank the member for some notice of the question. The following answer has been provided by the Minister for Fisheries.

- (1) The Department of Primary Industries and Regional Development has provided advice on the proposed draft zoning scheme and candidate areas for potential sanctuary protection for the south coast marine park. Feedback from the community reference committee and sector advisory groups on the candidate areas at the final meeting will form part of the ongoing consultation process for the south coast marine park.
- (2) The proposed draft zoning scheme, including candidate areas for sanctuary protection and possible impacts on fishing, is not finalised and is subject to further public consultation.
