525. Hon SALLY TALBOT to the minister representing the Minister for Environment:

I refer to the Department of Environment and Conservation's annual recycling activity in Western Australia report. When will the report for 2011–12 be published?

I thank the member for some notice of this question. The report "Recycling Activity in Western Australia 2011–12" is expected to be published by the Waste Authority in March 2013.
