- (2) If no to (1), why not?
- (3) Does the Minister currently expect people living in houses and businesses in the area to tolerate both noise, dust and vibrations from the KCGM superpit operations interfering with their comfort, convenience, amenity, health, welfare and amenity, as the pit gets closer to houses and businesses, given that KCGM wants to reduce to safety exclusion zone of 400 metres to 200 metres, which provides a buffer distance to minimise the impacts of emissions on people living in houses and businesses in the area?
- (4) If no to (3), why not?
- (5) If yes to (3), why?
- (6) Can the Minister state why the officer stated 'RSD is continuing to get complaints regarding dust, blast and vehicle noise and vibration from the superpit operations. Although there is a Pt4 package over the project, I am not convinced that it is managing these operations adequately, nor is the monitoring sufficiently detailed to pick up specific impacts in the adjacent residential area. - (2) If no to (1), why not?
- (3) If yes to (1), why?
- (4) Does the Department of Environment (DoE) understand the clear difference between taking enforcement action against KCGM which clearly encourages, facilitates further breaches of the laws and taking enforcement action which clearly discourages further breaches of the laws which are designed to protect the environment and community and deters the offender with serious penalties?
- (5) If yes (4), can the Minister explain how the DoE understands the difference?
- (6) If no to (4), why not?
- (7) Can the Minister explain why the officer stated 'This issue is progressively becoming critical as the pit is proposed to expand further to the west and operations will be getting closer to the residential areas. The Community is concerned that if it is causing them problems now it will become worse later'?
- (8) If no to (7), why not?
- (9) Can the Minister explain why the officer stated 'I would like to be able to use the licensing system to achieve the necessary monitoring, reporting, control and environmental outcome. However from recollection the licence does not or at least did not cover the superpit operations'?
- (10) If no to (9), why not?
- (11) Will the Minister clearly change the current system of unenforceable Ministerial conditions, to where the licensing system clearly covers all of KCGM's operations, so as the monitoring, reporting, and control can be amended at any given time very quickly, reviewed annually providing for input from members of the public and be ultimately reviewed by the Minister?

- (7) Can the Minister quote the specific text of the licence condition which was replaced in the licence after the licence condition was removed in question (1) above?
- (8) If no to (7), why not?
- (9) Can the Minister explain why would the earliest licences for the Fimiston operation have the requirement of preventing seepage crossing the premises or lease boundaries, given that the works approval required the Fimiston I tailings dam to be built in a certain way to be impervious and in the event that there was seepage, KCGM made a written commitment that they would contain and recover that seepage within the plant and tailings areas?
- (10) If no to (9), why not?
- (11) Can the Minister explain why the DoE required that the Fimiston I tailings dam be built in a certain way to be impervious and then just totally ignored this to accommodate KCGM causing pollution, stressing and killing vegetation for the next 12 years and more?
- (12) If no to (11), why not?
- (13) Can the Minister explain why the DoE over the last 12 years has focussed its resources on defending KCGM by regularly just changing the wording of the licences each time they are reissued, the effect of which is to facilitate and encourage continued seepage spreading up to two km from the source, while this has been causing pollution killing and stressing vegetation in direct contravention of the *Environmental Protection Act 1986*?

I refer to question on notice No. 2889 of November 10 2005, and the answers provided -

- (1) Can the Minister explain why the Department of Environment (DoE) specifically and intentionally uses the word 'manage' in the licence condition, knowing that if pollution or damage does occur, the DoE would have to prove that the spill or whatever, was the result of inappropriate management without specifically identifying what this is, which makes it extremely hard to enforce?
- (2) If no to (1), why not?
- (3) Can the Minister explain why the DoE continues to set licence conditions in KCGM's most recent licence, which are ambiguous, are not clear on what is expected, and as a result are not clearly enforceable when an incident or problem arises?

- (4) If no to (3), why not?
- (5) Can the Minister explain why the DoE set a licence condition in KCGM's most recent licence, stating 'The licensee shall manage the storage of all matter containing cyanide, saline or alkaline constituents within holding facilities in a manner, which prevents pollution', knowing that there is a general obligation under the *Environmental Protection Act 1986* to not cause pollution?
- (6) If no to (5), why not?
- (7) Can the Minister explain how the DoE is going to make sure that pollution or environmental harm is not being caused from emissions from seepage from the Fimiston I tailings dam, given that the word 'manage' is not clearly defined as to what needs to be achieved?
- (8) If no to (7), why not?
- (9) Can the Minister explain why the DoE when KCGM's most recent licence was issued, did not expand the scope of the condition to include impacts of all kinds (i.e. environmental harm), to prevent emissions of seepage from leaving the premises and entering Prospecting Licence 26/3126?
- (10) If no to (9), why not?

- (6) If no to (5), why not?
- (7) Can the Minister confirm that the Thompson and Brett report dated October 12 2004, in part states 'The most obvious impact of seepage and the rising groundwater levels has been on vegetation. A comparison of aerial photographs and evidence of stumps at the site indicate that there has been an identifiable loss of mature trees in the zone previously affected by elevated ground water tables but without testing it is not possible at this stage to prove the cause of death. Some trees in the area appear noticeably stressed or recovering from previous stresses'?
- (8) If no to (7), what specifically does it state?

3214. Hon Paul Llewellyn to the Minister for Education and Training representing the Minister for the Environment

I refer to Cooke Review dated January 15 2004, the Thompson and Brett Report dated October 12 2004, question on notice No. 1334 of May 2 1995, the 'Technical Review Tailings dams' report dated June 17 1994, and a letter dated October 15 1996, titled 'Saline Ground Water and Vegetation stress' signed by Andrew Baker, Director Pollution Prevention Division, Department of Environmental Protection addressed to Mr Bob Crew, General Manager, Kalgoorlie Consolidated Gold Mines Pty Ltd (KCGM) -

- (1) Can the Minister explain why the Department of Environment (DoE) wrote to KCGM on October 15 1996, stating 'In the course of reviewing claims by a neighbouring leaseholder, it has come to our attention that there is vegetation under stress and apparently dying in the area of land between your mining operations and the Fimiston II tailings storage facility. The area contains the Australian National reserve, your own leases and leases owned by others. It is effectively bounded to the north by Bulong Road and on each side by Fimiston II TSF and your major operating area respectively, including Fimiston I TSF in the North and Oroya TSF in the South'?
- (2) If no to (1), why not?
- (3) Can the Minister explain why the DoE wrote to KCGM on October 15 1996, stating 'I am aware that you have recently commissioned reclamation bores in the northern portion of the area, but I am very concerned that vegetation stress leading to deaths of the canopy vegetation of eucalypts, casuarinas and the like is still occurring. Once again in the absence of any other explanation, rising saline ground water levels would appear to be the cause'?

3220. Hon Paul Llewellyn to the Parliamentary Secretary representing the Minister for Planning and Infrastructure

I refer to question on notice No. 2510 of October 20 2004, and the answers provided concerning a gravel road illegally constructed on Mining Lease 26/261 (owned by Barrick Gold and Newmont Mining) as an extension to Sutherland Street, crossing old Kanowna Road and intersecting with Yarri Road near the Ninga Mia Aboriginal Community -

- (1) Is the Government responsible for any accidents which may occur on this road?
- (2) If no to (1), why?
- (3) If yes to (1), why?

3221. Hon Paul Llewellyn to the Minister for Education and Training representing the Minister for the Environment

I refer to question on notice number 2608 September 22 2005, and the answers provided -

- (1) Is it correct that a licence is issued under the *Environmental Protection Act 1986* because an emission is occurring, or likely to occur, and the purpose of the licence is to put measures in place to prevent this emission from causing pollution?
- (2) If no to (1), what specifically is correct?
- (3) Can the Minister explain and define what the word minimises means for the answer for part (10)?
- (4) If no to (3), why not?
- (5) Does the Department of Environment (DoE) understand the difference between minimising the likelihood of pollution occurring and maximising the likelihood of pollution occurring with emissions in setting licence conditions?
- (6) If yes to (5), what are those differences?
- (7) If no to (5), why not?
- (8) Can the Minister explain how does condition W2 minimise the likelihood of pollution occurring, given that this condition clearly allows wastewater emissions containing cyanide, saline, alkaline constituents along with heavy metals and other toxic chemicals to leave the premises and therefore create the maximum amount of possible emissions increasing the likelihood of pollution occurring on Prospecting Licence 26/3126?
- (9) If no to (8), why not?

licence as an additional statutory control', can the Minister explain why the DoE after having over eight months to investigate this, decided not to include a financial assurance in the licence reissued on Friday, September 30 2005?

- (2) If no to (1), why not?
- (3) Given that it has been identified from an internal KCGM document that the final closure cost for the superpit mine has been estimated between 93 and 115 million dollars with a large amount of this post closure cost being 34.6 million dollars to 47.8 million dollars which is highly sensitive to the continued cost of dewatering around the tailings storage facilities, will the Minister urgently request that the DoE set and apply a financial assurance so that taxpayers of Western Australia are not exposed to a sub surface liability of seepage generated by KCGM?
- (4) If no to (3), why not?

3223. Hon Paul Llewellyn to the Minister for Education and Training representing the Minister for the Environment

I refer question on notice Nos 2887 and 2888 of November 10 2005, and a letter of complaint dated November 2005, containing photographic evidence of pollution and breaches of licence conditions which I understand was sent to the Minister for the Environment -

- (2) If no to (1), why not?
- (3) Can the Minister explain why does the DoE give KCGM so much latitude in breaching licence conditions in which the evidence is clear and easily identifiable without facing a prosecution, particularly when the offender repeatedly breaches the same licence conditions?
- (4) In relation to the letter of complaint with photographic evidence, has KCGM breached its licence conditions?
- (5) If yes to (4), will they be prosecuted given they have a history of breaching licence conditions?
- (6) If no to (4), why not?
- (7) Has KCGM breached the *Environmental Protection Act 1986* causing pollution with the stressing and killing of vegetation caused by seepage from the Fimiston I and Fimiston II tailings dams?
