About the Art Gallery of Western Australia

The Art Gallery of Western Australia was founded and acquired its first work of art in 1895. Today it is established by the Art Gallery Act 1959 and a part of the Culture and Arts portfolio.

The Gallery, the oldest visual arts organisation in the State, is housed in three heritage buildings located in the Perth Cultural Centre. The Main Galleries were completed in 1979 and façade maintenance was finished in May 2012. Opened in 1995 were the adjoining Centenary Galleries, which were originally the Perth Police Courts. The historic Barracks building houses the administration offices, the theatre, the public programs and the Voluntary Gallery Guides areas.

The Gallery collects and maintains the State Art Collection which currently comprises 16,909 works by Western Australian, Australian and international artists and is committed to providing access to the visual arts and delivering programs that connect, stimulate, involve, educate and entertain.

The State Art Collection is developed, displayed and preserved to ensure that the Art Gallery of Western Australia maintains the finest public art collection in the State. Through the Collection displays and programs, the Gallery continues to support access to art, heritage and ideas locally, nationally and internationally now and for future generations.

Overview of the Agency

Executive Summary

The 2011-12 year has been an exciting year for the Art Gallery of Western Australia with the Gallery's continued commitment to presenting, exclusively to Western Australia, the 'Great Collections of the World' series. The second exhibition in this series was 'Princely Treasures: European Masterpieces 1600-1800 from the Victoria and Albert Museum' which opened in September 2011.

The Commonwealth Heads of Government Meeting (CHOGM) in October 2011 provided increased engagement with arts and culture through a four-day Commonwealth Festival. Highlights were 'Princely Treasures' and the Western Australian Indigenous Art Awards which were exhibited during CHOGM.

The third exhibition in the 'Great Collections of the World' series - 'Picasso to Warhol: Fourteen Modern Masters' opened in June 2012. This exhibition launched a unique opportunity and exclusive partnership with the internationally renowned Museum of Modern Art (MoMA) in New York to deliver six world-class exhibitions in Perth between 2012 and 2015. The series will demonstrate that Western Australia has both the ability and stature to deliver outstanding international exhibitions and that the vitality of the State's cultural activity matches its dynamic economic sector.

In May 2012, the exhibition 'JEFF WALL Photographs' opened, and also played an important role in profiling Perth's ongoing commitment to the development of high calibre international exhibitions. The exhibition organised by the Gallery will tour nationally to Melbourne and Sydney.

The Gallery's ongoing commitment to purchasing important and iconic works for the State Art Collection on behalf of the people of Western Australia saw many exciting acquisitions made throughout the year in all areas of the Collection. These included major works by Brian Blanchflower, Candice Breitz, Paul Caporn, Charles Conder, Pippin Drysdale, Roe Ethridge, Gunybi Ganambarr, Emile Gallé, Joy Hester, Queenie McKenzie, Patrick Mung Mung, Callum Morton, John Nixon, Ethel Spowers, Ricky Swallow and James Welling.

The Gallery's continued development of the Collection and programming achievements have also been assisted enormously by the generosity of works of art gifted by collectors and artists, and our many sponsors and supporters both corporate and private.

In 2009 the State Government allocated a \$10 million budget to restore the exterior of the main heritage building façade. This was to mitigate any public safety issues posed by the ongoing deterioration of the existing block work.

This maintenance project commenced in April 2011 and was completed on schedule and on budget in May 2012. Thanks to additional funding provided by the Government construction began on the installation of LED screens and canopies which are due to be completed in early 2012-13, giving the Gallery an aesthetic facelift.

This year saw two members leave the Board. Trish Ridsdale was appointed in December 2011 to replace Kellie Benda whose term expired after serving five years on the Board. Andrea Horwood-Bux was appointed in late June 2012 to replace Alan Davies who retired in April 2012 after serving two years on the Board.

This year's achievements would not have been possible without the continued and considerable support proved by the Western Australian Government and The Hon. John Day, MLA, Minister for Culture and the Arts. We would also like to thank the Board of the Art Gallery of Western Australia, the staff and volunteers at the Gallery for their efforts and support over the year.

The Gallery's work over the past year has been guided by the 2011-16 Strategic Plan.

In line with best practice, the Gallery undertook the first full stocktake of the Collection over a five-year period. Work on the stocktake began in the 2005/06 financial year. Completed in June 2010, this was the first comprehensive stocktake of the State Art Collection since the Gallery was founded in 1895.

The completion of the stocktake has been the culmination of significant research work over several years to ensure the Collection management practices at the Gallery are consistent with national and international museum standards and to make sure these fully comply with the requirements and standards agreed with the Office of the Auditor General.

The stocktake addressed issues of collection management and improved record keeping practices. The Gallery's archival investigations revealed that all items that had been previously identified as unlocated on the collection database record were confirmed as unlocated.

A total of 44 works which have been held at the Western Australian Museum were formally transferred into their care.

Collections (continued)

The completion of this stocktake has consolidated and improved the knowledge base on the Collection, with the Gallery having fully verified the location of all works in the Collection.

The Collection database is now a fully up-to-date and verified record of the State Art Collection, ensuring that future stocktakes will be based on a sound record of the existing Collection.

The Gallery launched the 'Collection in focus' series with two publications, 'William Kentridge Shadow quartet' and 'Plates, blocks and stones: five centuries of international prints'. This print exhibition included 88 rarely seen works spanning a period from Durer to Warhol, and included many works that had not been seen on display in the Gallery for over a decade.

See full list of exhibitions and displays at Appendix 'G'.

Overview

The Gallery provides broad access to the community, visiting and participating in a diverse calendar of events and functions.

The Gallery's Visitor Access Program, established in 2007 as part of the Disability Access and Inclusion Plan, aims to provide all visitors, and in particular those with disabilities, equal access to the Gallery's facilities and exhibitions. These include the

provision of touch tours for sight-impaired visitors and art workshops designed for groups that have special or additional needs.

The Gallery continues to improve online information services through the website, and the increased use of social media applications such as Facebook, Twitter and YouTube.

Volunteer Gallery Guides continue to make a significant contribution to the visitor experience and understanding of the State Art Collection and the Gallery's temporary exhibitions.

Outcomes

A total of 318,825 people visited the Gallery during the year compared to 345,171 people visiting the Gallery the previous year. This was a good result considering the façade maintenance project was underway for 2011-12.

The Gallery's website attracted 165,962 unique visitors, compared to 167,303 for the previous year.

The Gallery's social media offerings currently include 8,670 subscribers to its e-newsletter, with 4,977 Facebook and 7,789 Twitter followers.

Programs (continued)

Research was undertaken by the international strategic research company Morris Hargreaves McIntyre early in 2012. This research was in the form of focus/groups and workshops with selected groups of potential visitors, and some on-line research. Recommendations based on the findings significantly influenced the format of events planned in support of the MoMA series of exhibitions.

In June 2012, Morris Hargreaves McIntyre, conducted a series of visitor satisfaction interviews on behalf of the Gallery. Responses and key findings of the market research were as follows:

- Visitor satisfaction levels were very good with 96% being satisfied overall
 - 57% of visitors felt very satisfied with their visit to the Gallery
 - a further 39% were quite satisfied; and
- no visitors felt unsatisfied with their visit.

Just over two thirds (68%) of visitors said they would definitely recommend the Art Gallery of Western Australia to their friends and family, with a further 24% saying they would probably recommend it.

Many visitors expressed their thanks and appreciation for the quality of the exhibitions at the Gallery and that they were given the opportunity to view the works from the State Art Collection. Visitors articulated their desire for more places like the Art

Gallery of Western Australia in the area, and that they were looking forward to seeing what the Gallery brings in the future.

The Gallery's pro-active media program through 2011-12 covered stories relating to the Gallery's exhibitions and programs.

Media coverage included television, radio and local, national and international publications with news stories of over 3,300 individual articles, reviews and listings. The Gallery's exhibitions were also featured highly on-line websites.

Events

The successful ARTBAR Season 3 series final, in July 2011 concluded with Australian Singer Robert Forster. Season 4 of ARTBAR for 2012 will commence in July 2012.

The Gallery's very successful school programs attracted over 15,000 students during the 2011-12 financial year.

Programs highlights included:

- October, and December 2011-January 2012 school holidays:
 - children's activities in support of the 'Princely Treasures: European Masterpieces 1600-1800 from the Victoria and Albert Museum' exhibition with children being able to make their own 'Courtly Characters' inspired by the fashions in the exhibition
 - the extremely popular Lego Art Event at the end of the first week of the October 2011 school holidays

Programs (continued)

- On 12 November 2011, as part of the Heritage Perth Days Events, the Volunteer Gallery Guides ran free tours of the historic Centenary Galleries. These tours included the history of the French Renaissance architecture and the old Police Law Courts, currently home to the Gallery's Administration.
- 13 November 2011, Heritage Day Lego Art Event.

During the 'Princely Treasures European Masterpieces 1600-1800 from the Victoria and Albert Museum' exhibition the Gallery extended its opening hours on Fridays which was supported by the Gallery Café, several Northbridge cafés and small bars which were offered discounts on meals and/or drinks on presentation of 'Princely Treasures' exhibition tickets.

Another popular innovation which was introduced in 2011-12 was the introduction of Grandparents Days, with grandparents being encouraged to visit the exhibition with their grandchildren.

Gallery Retail and Commercial Activities

The trend of lower consumer spending continued in the Gallery Shop and café. Commercial revenue was also affected by the renovation work being done during the year as part of the Gallery façade maintenance project.

During the year the Gallery Shop provided a second outlet as part of the 'Princely Treasures European Masterpieces 1600-1800 from the Victoria and Albert Museum' exhibition. The exhibition themed merchandise proved popular with visitors. For the MoMA exhibition series (six exhibitions in the series) the Gallery Shop has acquired an exciting range of related products for visitors to buy.

Significant changes in ticketing prior to the launch in June 2012 of the MoMA Exhibition Series were implemented by the Gallery. A tender process for the ticketing service was contracted out, with the new system providing more support to the Gallery's business functions, including marketing activities to new audiences. Visitors can now book on-line preplanning their Gallery visit. The ticketing system increases future opportunities for e-commerce.

Gallery Functions

The Gallery's functions and venue hire continue to play an important role in promoting exhibitions and encouraging attendance. With the MoMA series of exhibitions, the Gallery introduced a new strategy, offering the full range of corporate entertainment options for Sponsors and Foundation members to enhance their relationship with the Gallery and encourage others to join in support of their State Art Collection. There are two all-inclusive exhibition packages available for those organisations not directly affiliated with the Gallery.

Infrastructure

Strategic Objective: To enhance the visitor experience, access to and preservation of the State Art Collection with world-class facilities.

The Gallery's key strategies in 2011-12 to meet this objective were to:

1. Deliver Building Renewal Capital Works Program.
2. Expand Program Space Capacity.
3. Expand Gallery Buildings and improve facilities.

Overview

A key issue for the Art Gallery of Western Australia is the maintenance of its highly utilised buildings within a limited budget. An important consideration is that the buildings are heritage listed and the Centenary Galleries and Administration building were not built for their current purpose or usage.

The capital works for maintenance infrastructure supports enhanced Collection displays and improved visitor experience through a variety of projects.

The Gallery contributes to improving regional facilities by assisting the Geraldton Regional Art Gallery in implementing the Master plan in conjunction with the City of Greater Geraldton and assisting the Bunbury Regional Arts Management Board in

conjunction with the City of Bunbury to progress master planning for Gallery renewal.

Outcomes

The State Government allocated a \$10 million budget to restore the exterior façade of the main Art Gallery building in 2009. The like-for-like replacement has mitigated any public safety issues posed by the ongoing deterioration of the previous block work cladding.

Construction work on the façade commenced in April 2011 and was completed on schedule and on budget in May 2012. The new cladding enables the Gallery to highlight an iconic building.

Planned additions which have been begun with the installation of five LED screens, a canopy near the Café and a canopy near the wetland, helping to transform the exterior and giving the main building an aesthetic uplift as well as provide improvements to the Perth Cultural Centre.

As part of ongoing developments to enhance public displays for visitors there have been two significant projects.

Infrastructure (continued)

The first project was completion of phase one of a showcase replacement program. This phase saw new museum-quality showcases purchased and used for 'Princely Treasures: European Masterpieces 1600-1800 from the Victoria and Albert Museum' which opened on 23 September 2011.

The second project has been the first stage of the upgrade of the gallery lighting in the two public galleries used for 'Great Collections of the World' exhibitions. The new lighting system replaces the original lighting installed when the main building was constructed in 1979. The old lighting throughout the main building will be gradually replaced in coming years.

The Gallery's aged telephone service was replaced with a new VOIP telephone system providing cost savings and better integration with existing network systems. The integration of the telephone system into the existing server environment will allow future further developments and improvements.

Throughout the year ongoing maintenance programs have ensured that key systems work effectively to maintain environmental controls essential for the safety and preservation of the State Art Collection and loan exhibitions.

A master plan for the redevelopment of the Geraldton Regional Gallery was completed. Bunbury Regional Art Galleries achieved a number of building improvements with the support of the State Government and the City of Bunbury, and are working with the City to identify the most appropriate site for a new gallery to be built.

The Art Gallery of Western Australia continues to work with the Metropolitan Redevelopment Authority (MRA) (previously the East Perth Redevelopment Authority) on improvements and master planning of the Perth Cultural Centre. Staff who worked on the façade maintenance project worked closely with MRA to ensure the façade construction is aligned to longer-term plans for the Centre.

Relationships

Strategic Objective: To build and foster relationships which grow support, advocacy, funding, and investment for the Gallery.

The Gallery's key strategies to meet this objective were to:

1. Create a wide network through which support and advocacy are built and fostered.
2. Achieve sustainable ongoing funding for the Gallery's operations in order to meet required service delivery outcomes.

Overview

The Rio Tinto Future Fund and the Gallery established a new partnership in celebration of the rich culture of the Indigenous people of the Kimberley. This collaboration supports the exploration of the important custodial narratives and traditions often seen in Kimberley art, with an objective of developing a significant visual arts project. The first 18 months of the project focuses on comprehensive regional consultation and research with Indigenous arts communities across the spectacular Kimberley region. The project also involved the recruitment of an Indigenous community liaison officer working with the Gallery and the communities.

Outcomes

The Gallery was the National Winner and Winner Western Australia of the AbaF Visy Arts & Environment Award. Since

2007, the Art Gallery of Western Australia and the Water Corporation have benefited greatly from a partnership that uses the arts to increase community awareness of water.

The Art Gallery of Western Australia Foundation places a very high value on the relationship with members and hosted a series of special events throughout the year, including previews prior to general opening parties for the launch of exhibitions such as 'Princely Treasures: European Masterpieces 1600-1800 from the Victoria and Albert Museum'; 'Jeff Wall Photographs', and 'Picasso to Warhol: 14 Modern Masters'.

Foundation members at the level of Fellow and above were offered the opportunity to join an art tour in Venice in September 2011. This international tour, fully funded by participants, was led by the Director. This first tour proved so successful it will become an annual event, with a different destination each year.

Performance

Strategic Objective: To build a reputation that attracts, and a culture and capability that retain, the best people.

The Gallery's key strategies to meet this objective were:

1. Implementation of the brand essence 'Always Inspiring' and delivering a visitor experience in line with the brand values: 'enlightening, immersive, connecting, dynamic and enjoyable'.
2. Improve organisational capability to deliver strategic plan.

Overview

The Gallery develops and manages brand recognition to provide a visitor experience that delivers on the brand promise and to engage and build relationships with our existing audience and develop new audiences.

The Gallery works collaboratively with national and international collecting institutions to identify program initiatives and to explore operational efficiencies and shared services improvements.

The Gallery undertakes activities that will develop stronger links throughout the creative sector and assist it to develop and grow. These activities include developing public programs and conducting events that stimulate debate, discussion and understanding of the visual arts; providing support for training

and development programs and collaborating and consulting with Indigenous communities and Indigenous artists to facilitate opportunities for the creation of understanding and presentation of Indigenous arts practice that is culturally appropriate.

The Gallery continues to secure and strategically manage resources to support the delivery of art gallery services to meet Government outcomes and deliver on the longer term goals of the strategic plan.

Outcomes

The Gallery partnered with the Victoria and Albert Museum, London and with the Museum of Modern Art, New York, with the first in a series of six exhibitions in continuation of the 'Great Collections of the World'.

Staff have participated in various professional national museum forums and conferences in order to encourage and maintain communication, leadership development opportunities and national alignment of business development initiatives in the public art museum sector nationally and internationally.

Performance (continued)

The Gallery has a strong commitment to excellence in governance and corporate systems. All activities are aligned to achieve the Gallery's collections, programs and visitor services objectives.

Significant progress during the year saw the Gallery revising its policy framework. Completely revised and new policies were approved by the Audit and Risk Management Committee and the Board that will support improved corporate governance and compliance by the Gallery.

Staff awareness of procurement policy and process remained a focus for 2011-12 with continued implementation of procurement improvement including staff training. The Gallery introduced rigorous procurement procedures with relevant agency-specific contracts being developed to improve procurement efficiency.

As part of ongoing risk management programs the Disaster Management Plan was reviewed and updated. Risk reporting structures have been further improved by revisions of the incident reporting system. A key achievement was the development and implementation of the Gallery's Business Continuity Plan.

A new Portfolio Strategic Workforce Plan 2012 - 17 has been drafted and is currently awaiting final endorsement. All portfolio agencies are covered by this plan. The Public Sector Commission is aware of the Department's progress. The plan is on track for completion.

Regions

Geraldton Regional Art Gallery

The Gallery continues to support the delivery of art gallery services in regional Western Australia through its regional services and support and advice to local groups.

The Geraldton Regional Art Gallery, operated by the Art Gallery of Western Australia, launched the second annual Mid-West Art Prize on 3 March 2012. The exhibition was officially opened by Art Gallery of Western Australia Deputy Director | Chief Operating Officer, Mr Brian Stewart. With \$45,000 worth of non-acquisitive awards this continues as one of the richest art prizes in West Australia. The City of Greater Geraldton once again sponsored the \$20,000 overall award for excellence and further sponsorship was again generously provided by local and State industry groups and individuals including Minerals and Metals Group/Golden Grove, Grant Woodhams MLA, Eastman Poletti Sherwood Architects, GWN7 and The Guardian Newspaper. This year a new sponsor, WAFM96.5 was secured for the Youth Award. Open to artists from throughout the State, 335 works were submitted for consideration from which 75 works were selected for final exhibition.

Throughout the year the Geraldton Regional Art Gallery offered a diverse range of exhibitions and programs to the community and visitors to the region including 11 works by the late George Duerden which were donated by the Art Gallery of Western Australia to the City of Greater Geraldton Art Collection.

The year realised the completion by Griffiths Heritage Architects of a Schematic Master Plan for the redevelopment of the building, including a significant multi-purpose community workshop facility, staff amenities new air-conditioning systems, replacement of the asbestos roof and a general upgrade to both interior and exterior. Further to this, an updated Conservation Plan was completed for the building by Palassis Heritage Architects. Funding for these projects were through the City of Greater Geraldton and the Mid West Development Commission.

Bunbury Regional Art Galleries

The Bunbury Regional Art Galleries were very pleased to be invited to host 'Sidney Nolan – the Gallipoli Series', an exhibition toured by the Australian War Memorial. Bunbury was one of only two Western Australian venues to present this important national exhibition and as such it was the highlight of the 2011-12 program.

The Galleries were also privileged to be the only Australian venue for an exhibition works by Korean textiles artist Jiyoung Chung and Irish artist Helen O'Hare. These two solo exhibitions, jointly titled Unique Perspectives, were indicative of the Galleries' strong focus on contemporary practice throughout the year. Other exhibitions such national touring exhibitions Tour de Force, the National Photographic Portrait Prize and Studio, further contributed to this.

Regional and Western Australia contemporary practice were also strongly represented with a retrospective of works by Brian McKay, 'Revelations' by South West Steam Punk artist Daniel Fisher, a survey of Biennale acquisitions from the City of Bunbury Art Collection as well as solo exhibitions by Greg White and Tania Ferrier. Overall, the Galleries were proud to deliver a program that was well balanced with international, national, state and local exhibitions that was diverse and provided points of interest for all audiences.

2011-12 was also a year that saw the Bunbury Regional Art Galleries achieve a number of long held aims in terms of improvements to the building. All climate control plant was replaced, a dual purpose lift installed to transport both the public and works of art as required, digital media equipment was installed and surveillance equipment upgraded. These improvements became operational during this financial year and are essential to the ongoing operations of the Galleries and ensure A-class standards are able to be maintained. They were achieved with the support of the State Government and of the City of Bunbury.

The City of Bunbury continues to engage with the Board of the Galleries to identify the most appropriate site for a new gallery to be built. With Council's obvious commitment to securing new facilities for Bunbury, the future looks bright for the future of the visual arts in the South West.

Care of 'Inside Australia'

The Gallery has continued to provide on and off-site conservation support for the Antony Gormley installation at Lake Ballard in the Shire of Menzies.

As part of the on-going care of 'Inside Australia' by Antony Gormley three damaged or missing statues identified during the regular conservation survey were reinstated on Lake Ballard, and an additional damaged work was recovered from the lake and underwent repair. Initial scoping work on extending the fence line at the lake edge to ensure vehicles are restricted from lake access as well as research on designing new bases was commenced.

Significant opportunities impacting the Art Gallery

- The Gallery in an exclusive partnership with Museum of Modern Art, New York has a unique opportunity to deliver six world-class exhibitions in Perth between 2012 and 2015. This will demonstrate that Western Australia has the ability and reputation to make successful international partnerships to deliver outstanding major exhibitions and that the vitality of the Gallery makes a dynamic contribution to the State.
- The Gallery delivered the first Australian exhibition of world renowned artist Jeff Wall. 'JEFF WALL Photographs' will tour nationally commencing in November 2012, demonstrating the capacity in Western Australia to successfully present major exhibitions of international contemporary art and contribute to the enhanced reputation of Western Australia as an innovator in the cultural sector.
- A key issue for the Gallery is the maintenance of its highly utilised buildings within a limited budget. An important consideration is that the buildings are heritage listed and the Centenary Galleries and Administration building were not built for their current purpose or usage.
- The Gallery continues to work with the Portfolio on combined storage facilities to meet critical needs for current and future storage of the State Art Collection. The lack of storage space has an impact on the ability of the Gallery to display the State Art Collection. Congested collection storage areas affect productivity levels in providing Gallery services for the public.
- The Art Gallery of Western Australia Foundation TomorrowFund now supports significant acquisitions of contemporary art. However, due to the current prices in the art market, the purchase of historical and modern art and design remains restricted. This limits the capacity to develop the State Art Collection and meet all the targets identified in the Acquisitions policy 2009 - 2013.

Looking Ahead – Major Initiatives in 2012-13

- The Gallery will present the second and third of the six world-class exhibitions in 2012-13 Museum of Modern Art (MoMA) exclusive partnership.
- Tour the first Australian exhibition of world renowned artist Jeff Wall to Victoria and New South Wales.
- The Gallery will deliver a wide range of public programs and events for the MoMA exhibitions with a particular emphasis on programs tailored for our defined audience segments which provide many opportunities to interact and give visitors the opportunity to personalize their experience.
- The Gallery will develop the State Art Collection in accordance with the targets identified in the Acquisitions policy 2009 – 2013.
- The Gallery will continue implementation of audience development strategies for partnerships, direct marketing and improved resourcing and infrastructure and for stakeholder management.
- The 2012-13 asset investment program will provide for the upgrade of key infrastructure which enhance visitor experiences and improve environmental controls.

Projects in 2012-13 include:

- Complete additions to the façade maintenance program which will see the installation of five LED screens at the entrance and completion of a canopy near the Café and a canopy near the wetland
 - Complete an upgrade to the Main Building lift
 - Implement improvements to the Centenary Galleries air conditioning and structure to ensure better environmental controls; and
 - Complete the second phase of the lighting upgrade to the major exhibitions display galleries and implement the new computer control system which replaces the old manual adjustments of each individual light unit.
- The Gallery will continue to work with the Portfolio on combined storage facilities to meet critical needs with current and future storage of the State Art Collection.

Notes to the Financial Statements for the Year Ended 30 June 2012

Note 1. Australian Accounting Standards

General

The Board's financial statements for the year ended 30 June 2011 have been prepared in accordance with Australian Accounting Standards. The term 'Australian Accounting Standards' includes Standards and Interpretations issued by the Australian Accounting Standards Board (AASB).

The Board has adopted any applicable, new and revised Australian Accounting Standards from their operative dates.

Early adoption of standards

The Board cannot early adopt an Australian Accounting Standard unless specifically permitted by TI 1101 Application of Australian Accounting Standards and Other Pronouncements. No Australian Accounting Standards that have been issued or amended [but not operative] have been early adopted by the Board for the annual reporting period ended 30 June 2012.

Note 2. Summary of Significant Accounting Policies

(a) General statement

The Board is a not-for-profit reporting entity that prepares general purpose financial statements in accordance with the Australian Accounting Standards, the Framework, Statements of Accounting Concepts and other authoritative pronouncements of the AASB as applied by the Treasurer's instructions. Several of these are modified by the Treasurer's instructions to vary application, disclosure, format and wording.

The Financial Management Act and the Treasurer's instructions impose legislative provisions that govern the preparation of financial statements and take precedence over the Australian Accounting Standards, the Framework, Statements of Accounting Concepts and other authoritative pronouncements of the AASB.

Where modification is required and has had a material or significant financial effect upon the reported results, details of that modification and the resulting financial effect are disclosed in the notes to the financial statements.

(b) Basis of preparation

The financial statements have been prepared on the accrual basis of accounting using the historical cost convention, except for land, buildings and works of art which have been measured at fair value.

The accounting policies adopted in the preparation of the financial statements have been consistently applied throughout all periods presented unless otherwise stated.

The financial statements are presented in Australian dollars and all values are rounded to the nearest thousand dollars (\$'000).

Note 4 'Judgements made by management in applying accounting policies' discloses judgements that have been made in the process of applying the Board's accounting policies resulting in the most significant effect on amounts recognised in the financial statements.

(c) Reporting entity

The reporting entity comprises the Board of the Art Gallery of Western Australia.

(d) Contributed equity

AASB Interpretation 1038 Contributions by Owners Made to Wholly-Owned Public Sector Entities requires transfers in the nature of equity contributions, other than as a result of a restructure of administrative arrangements, to be designated by the Government (the owner) as contributions by owners (at the time of, or prior to transfer) before such transfers can be recognised as equity contributions. Capital appropriations have been designated as contributions by owners by TI 955 Contributions by Owners made to Wholly Owned Public Sector Entities and have been credited directly to Contributed equity.

The transfer of net assets to/from other agencies, other than as a result of a restructure of administrative arrangements, are designated as contributions by owners where the transfers are non-discretionary and non-reciprocal. See also Note 31 'Equity'.

(e) Income

Revenue recognition

Revenue is recognised and measured at the fair value of consideration received or receivable. The following specific recognition criteria must also be met before revenue is recognised for the major business activities as follows:

Sale of goods

Revenue is recognised from the sale of goods and disposal of other assets when the significant risks and rewards of ownership transfer to the purchaser and can be measured reliably.

Provision of services

Revenue is recognised on delivery of the service to the client or by reference to the stage of completion of the transaction.

Interest

Revenue is recognised as the interest accrues.

Service Appropriations

Service Appropriations are recognised as revenues at fair value in the period in which the Board gains control of the appropriated funds. The Board gains control of appropriated funds at the time those funds are deposited to the bank account or credited to the 'Amounts receivable for services' (holding account) held at Treasury. See also note 19 'Income from State Government' for further information.

Grants, donations, gifts and other non-reciprocal contributions

Revenue is recognised at fair value when the Board obtains control over the assets comprising the contributions, usually when cash is received.

Other non-reciprocal contributions that are not contributions by owners are recognised at their fair value. Contributions of services are only recognised when a fair value can be reliably determined and the services would be purchased if not donated.

Gains

Realised and unrealised gains are usually recognised on a net basis. These include gains arising on the disposal of non-current assets and some revaluations of non-current assets.

(f) Property, plant and equipment and works of art

Capitalisation/Expensing of assets

Items of property, plant and equipment costing \$5,000 or more are recognised as assets and the cost of utilising assets is expensed (depreciated) over their useful lives. Items of property, plant and equipment costing less than \$5,000 are immediately

expensed direct to the Statement of Comprehensive Income (other than where they form part of a group of similar items which are significant in total).

No capitalisation threshold is applied to works of art items. Items of works of art are considered to form part of a collection and are disclosed separately in the Statement of Financial Position.

Initial recognition and measurement

Property, plant and equipment and works of art are initially recognised at cost.

For items of property, plant and equipment and works of art acquired at no cost or for nominal cost, the cost is the fair value at the date of acquisition.

Subsequent measurement

Subsequent to initial recognition as an asset, the revaluation model is used for the measurement of land, buildings and works of art and the historical cost model for all other property, plant and equipment. Land, buildings and works of art are carried at fair value less accumulated depreciation (buildings only) and accumulated impairment losses. All other items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses.

Where market-based evidence is available, the fair value of land and buildings is determined on the basis of current market buying values determined by reference to recent market transactions. When buildings are re-valued by reference to recent market transactions, the accumulated depreciation is eliminated against the gross carrying amount of the asset and the net amount restated to the re-valued amount.

In the absence of market-based evidence, fair value of land and buildings is determined on the basis of existing use. This normally applies where buildings are specialised or where land use is restricted. Fair value for existing use assets is determined by reference to the cost of replacing the remaining future economic benefits embodied in the asset, i.e. the depreciated replacement cost. Where the fair value of buildings is determined on the depreciated replacement cost basis, the gross carrying amount and the accumulated depreciation are restated proportionately.

Land and buildings are independently valued annually by the Western Australian Land Information Authority (Valuation Services) and recognised annually to ensure that the carrying amount does not differ materially from the asset's fair value at the end of the reporting period.

The most significant assumptions in estimating fair value are made in assessing whether to apply the existing use basis to assets and in determining estimated useful life. Professional judgement by the valuer is required where the evidence does not provide a clear distinction between market type assets and existing use assets.

The Gallery's works of art collection is subject to a revaluation every five years, using a sampling methodology. The revaluation methodology is based upon certain criteria that enable the collection to be valued at a reasonable estimate of its fair value. A full revaluation was carried out in 2010.

See also note 26 'Property, plant and equipment' and note 27 'Works of art' for further information on revaluations.

De-recognition

Upon disposal or de-recognition of an item of property, plant and equipment and artwork, any revaluation surplus relating to that asset is retained in the asset revaluation surplus.

Asset Revaluation Surplus

The asset revaluation surplus is used to record increments and decrements on the revaluation of non-current assets as described in note 26 'Property, plant and equipment'.

Depreciation

All non-current assets having a limited useful life are systematically depreciated over their estimated useful lives in a manner that reflects the consumption of their future economic benefits.

Depreciation is calculated using the straight line method, using rates which are reviewed annually. Estimated useful lives for each class of depreciable asset are:

Buildings	50 years
Office equipment	3 to 20 years
Plant, equipment and vehicles	4 to 20 years

Works of art controlled by the Board are anticipated to have very long and indefinite useful lives. Their service potential has not, in any material sense, been consumed during the reporting period and no depreciation has been recognised.

Land is not depreciated.

(g) Intangible assets

Capitalisation/expensing of assets

Acquisitions of intangible assets costing \$5,000 or more and internally generated intangible assets costing \$50,000 or more are capitalised. The cost of utilising the assets is expensed (amortised) over their useful life. Costs incurred below these thresholds are immediately expensed directly to the Statement of Comprehensive Income.

Intangible assets are initially recognised at cost. For assets acquired at no cost or for nominal cost, the cost is their fair value at the date of acquisition.

The cost model is applied for subsequent measurement requiring the asset to be carried at cost less any accumulated amortisation and accumulated impairment losses.

Amortisation for intangible assets with finite useful lives is calculated for the period of the expected benefit (estimated useful life which is reviewed annually) on the straight line basis. All intangible assets controlled by the Board have a finite useful life and zero residual value.

The expected useful lives for each class of intangible asset are:

Software (a) 4 to 10 years

(a) Software that is not integral to the operation of any related hardware.

Computer Software

Software that is an integral part of the related hardware is treated as property, plant and equipment. Software that is not an integral part of the related hardware is recognised as an intangible asset. Software costing less than \$5,000 is expensed in the year of acquisition.

(h) Impairment of assets

Property, plant and equipment, works of art and intangible assets are tested for any indication of impairment at the end of each reporting period. Where there is an indication of impairment, the recoverable amount is estimated. Where the recoverable

amount is less than the carrying amount, the asset is considered impaired and is written down to the recoverable amount and an impairment loss is recognised. As the Board is a not-for-profit entity, unless an asset has been identified as a surplus asset, the recoverable amount is the higher of an asset's fair value less costs to sell and depreciated replacement cost.

The risk of impairment is generally limited to circumstances where an asset's depreciation is materially understated, where the replacement cost is falling or where there is a significant change in useful life. Each relevant class of assets is reviewed annually to verify that the accumulated depreciation/amortisation reflects the level of consumption or expiration of the asset's future economic benefits and to evaluate any impairment risk from falling replacement costs.

Intangible assets with an indefinite useful life and intangible assets not yet available for use are tested for impairment at the end of each reporting period irrespective of whether there is any indication of impairment.

The recoverable amount of assets identified as surplus assets is the higher of fair value less costs to sell and the present value of future cash flows expected to be derived from the asset. Surplus assets carried at fair value have no risk of material impairment where fair value is determined by reference to market-based evidence. Where fair value is determined by reference to depreciated replacement cost, surplus assets are at risk of impairment and the recoverable amount is measured. Surplus assets at cost are tested for indications of impairment at the end of each reporting period.

See also note 29 'Impairment of assets' for the outcome of impairment reviews and testing.

Refer also to note 2(p) 'Receivables' and note 22 'Receivables' for impairment of receivables.

(i) Other financial assets

Non-Current assets held for sale are recognized at the lower of carrying amount and fair value less costs to sell, and are disclosed separately from other assets in the Statement of Financial Position. Assets classified as held for sale are not depreciated or amortised.

The Board classifies its investments into the following categories, financial assets at fair value through profit or loss, loans and receivables, held to maturity investments and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition and re-evaluates this designation at the end of the reporting period.

The Board assesses at each balance date whether there is objective evidence that a financial asset or group of financial asset is impaired.

Fair value of quoted investments held for sale is based on the last sale price.

See also note 25 "Other Financial Assets".

(j) Leases

The Board holds operating leases for vehicles and office equipment. Operating leases are expensed on a straight line basis over the lease term as this represents the pattern of benefits derived from the leased properties.

(k) Financial instruments

In addition to cash, the Board has two categories of financial instrument:

- Loans and receivables; and
- Financial liabilities measured at amortised cost.

Financial instruments have been disaggregated into the following classes:

- Financial Assets
 - Cash and cash equivalents
 - Restricted cash and cash equivalents
 - Receivables
 - Amounts receivable for services
- Financial Liabilities
 - Payables

Initial recognition and measurement of financial instruments is at fair value which normally equates to the transaction cost or the face value. Subsequent measurement is at amortised cost using the effective interest method.

The fair value of short-term receivables and payables is the transaction cost or the face value because there is no interest rate applicable and subsequent measurement is not required as the effect of discounting is not material.

(l) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalent (and restricted cash and cash equivalent) assets comprise cash on hand and short-term deposits with original maturities of three months or less that are readily convertible to a known amount of cash and which are subject to insignificant risk of changes in value, and bank overdrafts.

(m) Accrued salaries

Accrued salaries represent the amount due to staff but unpaid at the end of the financial year. Accrued salaries are settled within a fortnight of the financial year end. Accrued salaries are recognised at year end where the pay date for the last pay period for that financial year does not coincide with the end of financial year all staff of the Culture and the Arts portfolio agencies, including the Board of the Art Gallery of Western Australia, are employees of the Department of Culture and the Arts. Therefore, the Board has no liabilities in relation to employee entitlements and accrued salaries. Accrued salaries are offset against resources received free of charge in the Statement of Comprehensive Income. Refer to note 3 'Department of Culture and the Arts'.

(n) Amounts receivable for services (holding account)

The Board receives income from the State Government partly in cash and partly as an asset (holding account receivable). The accrued amount appropriated is accessible on the emergence of the cash funding requirement to cover leave entitlements and asset replacement.

See also note 19 'Income from State Government' and note 24 'Amounts receivable for services'.

(o) Inventories

The Board's inventories relate to stock held at the Art Gallery Shop. Inventories are measured at the lower of cost and net realisable value. Costs are assigned on an average cost basis.

See note 21 'Inventories'.

(p) Receivables

Receivables are recognised at original invoice amount less an allowance for any uncollectible amounts (i.e. impairment). The collectability of receivables is reviewed on an ongoing basis and any receivables identified as uncollectible are written-off against the allowance account. The allowance for uncollectible amounts (doubtful debts) is raised when there is objective evidence that the Board will not be able to collect the debts. The carrying amount is equivalent to fair value as it is due for settlement within 30 days.

See also note 2(k) 'Financial Instruments' and note 22 'Receivables'.

(q) Payables

Payables are recognised when the Board becomes obliged to make future payments as a result of a purchase of assets or services. The carrying amount is equivalent to fair value, as settlement is generally within 30 days.

See also note 2(k) 'Financial instruments' and note 30 'Payables'.

(r) Provisions

Provisions are liabilities of uncertain timing or amount and are recognised where there is a present legal or constructive obligation as a result of a past event and when the outflow of resources embodying economic benefits is probable and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at the end of each reporting period.

Provisions - employee benefits

Annual leave and long service leave

All staff of the Culture and Arts portfolio agencies, including the Board of the Art Gallery of Western Australia, are employees of the Department of Culture and the Arts. Employee resources are received free of charge by the Board, the value of which is recognised as both a revenue and expense in the Income Statement. The Department of Culture and the Arts retains all liabilities in relation to employee benefits and accrued salaries. Therefore, the Board has no liabilities in relation to employee entitlements.

Annual leave and long service leave liability are recognised by the Department of Culture and the Arts. See note 3 'Department of Culture and the Arts'.

Provisions - other

Employment on-costs

Employment on-costs, including workers' compensation insurance, are not employee benefits and are recognised separately as liabilities and expenses when the employment to which they relate has occurred. Employment on-costs are included as part of 'Other expenses' and are not included as part of the Board's 'Employee benefits expense'.

See also note 11 'Other expenses'.

(s) Resources received free of charge or for nominal cost

Resources received free of charge or for nominal cost that can be reliably measured are recognised as income at fair value. Where the resource received represents a service that the Board would otherwise pay for, a corresponding expense is recognised. Receipts of assets are recognised in the Statement of Financial Position.

Assets or services received from other State Government agencies are separately disclosed under Income from State Government in the Statement of Comprehensive Income.

(t) Foreign Currency Translation

Transactions in foreign currencies are initially recorded by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. Foreign currency differences arising on retranslation are recognised in profit or loss.

The Art Gallery has exposure to movements in foreign currency exchange rates on some contracts which are denominated in foreign currencies. In 2010-11, the Board decided to minimize the risks associated with foreign currency fluctuations from foreign currency contracts on the Museum of Modern Art exhibition, be covered by forward purchase arrangements of the required foreign currency through the WA Treasury Corporation.

Forward exchange contracts are entered into as hedges to avoid or minimize possible adverse financial effects of movements in exchange rates. Such financial instruments are initially recognized at fair value and subsequently re-measured at fair value. At balance sheet date, the carried asset and liability is the fair value of the forward exchange contract.

For the purpose of hedge accounting, hedges are classified as either fair value hedges or as cash flow hedges. A hedge of the foreign currency risk of a firm commitment is accounted for as a fair value hedge.

Hedges that meet the criteria for hedge accounting are accounted for as follows:

Fair value hedges

Fair value hedges are hedges of exposure to changes in fair value of a recognized asset or liability that is attributable to foreign currency risk and could affect profit or loss. At balance date, the carrying amount of the hedged item is adjusted for gains or

losses attributable to the risk hedged, and the hedging instrument is re-measured to fair value and the gains and losses of both are taken to profit or loss.

When an unrecognised firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognized as an asset or liability with a corresponding gain or loss recognized in profit or loss. The changes in the fair value of the hedging instrument are also recognised in profit or loss.

(u) Comparative figures

Comparative figures are, where appropriate, reclassified to be comparable with the figures presented in the current financial year.

Note 3. Department of Culture and the Arts

The Department of Culture and the Arts provides staff and other support to agencies in the Culture and Arts portfolio. The Department receives an appropriation for salary costs, superannuation, fringe benefits tax expense and minor asset equipment as part of the DCA PC Replacement Program. These resources, provided to the Board, but paid for by the Department, have been treated as 'Resources received free of charge' in the Income Statement. See note 19 'Income from State Government'.

In addition, the Department of Culture and the Arts provides shared corporate services to the Board which are not recognised in the Income Statement.

Note 4. Judgements Made By Management in Applying Accounting Policies

The preparation of financial statements requires management to make judgments about the application of accounting policies that have a significant effect on the amounts recognised in the financial statements. The Board evaluates these judgments regularly.

Operating lease commitments

The Board has entered into a lease for motor vehicles. The Board has determined that the lessor retains substantially all the risks and rewards incidental to ownership of the vehicles. Accordingly, the leases have been classified as operating leases.

Note 5. Disclosure of Changes in Accounting Policy and Estimates

Initial application of an Australian Accounting Standard

The Board has applied the following Australian Accounting Standards effective for annual reporting periods beginning on or after 1 July 2011 that impacted on the Board:

AASB 1054	<p>Australian Additional Disclosures</p> <p>The Standard, in conjunction with AASB 2011-1 Amendments to Australian Accounting Standards arising from the Trans-Tasman Convergence Project, removes disclosure requirements from other Standards and incorporates them in a single Standard to achieve convergence between Australian and New Zealand Accounting Standards. There is no financial impact.</p>
AASB 2009-12	<p>Amendments to Australian Accounting Standards [AASB 5, 8, 108, 110, 112, 119, 133, 137, 139, 1023 & 1031 and Int 2, 4, 16, 1039 & 1052]</p> <p>This Standard makes editorial amendments to a range of Australian Accounting Standards and Interpretations. There is no financial impact.</p>
AASB 2010-4	<p>Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project [AASB 1, 7, 101 & 134 and Int 13]</p> <p>The amendments to AASB 7 clarify financial instrument disclosures in relation to credit risk. The carrying amount of financial assets that would otherwise be past due or impaired whose terms have been renegotiated is no longer required to be disclosed. There is no financial impact.</p> <p>The amendments to AASB 101 clarify the presentation of the statement of changes in equity. The disaggregation of other comprehensive income reconciling the carrying amount at the beginning and the end of the period for each component of equity is no longer required. There is no financial impact.</p>
AASB 2010-5	<p>Amendments to Australian Accounting Standards [AASB 1, 3, 4, 5, 101, 107, 112, 118, 119, 121, 132, 133, 134, 137, 139, 140, 1023 & 1038 and Int 112, 115, 127, 132 & 1042]</p> <p>The Standard makes editorial amendments to a range of Australian Accounting Standards and Interpretations. There is no financial impact.</p>

AASB 2010-6	Amendments to Australian Accounting Standards – Disclosures on Transfers of Financial Assets [AASB 1 & 7] The Standard makes additional disclosure relating to transfers of financial assets in AASB 7. An entity shall disclose all transferred financial assets that are not derecognised and any continuing involvement in a transferred asset, existing at the reporting date, irrespective of when the related transfer transaction occurred. There is no financial impact.
AASB 2011-1	Amendments to Australian Accounting Standards arising from the Trans-Tasman Convergence Project [AASB 1, 5, 101, 107, 108, 121, 128, 132 & 134 and Int 2, 112 & 113] This Standard, in conjunction with AASB 1054, removes disclosure requirements from other Standards and incorporates them in a single Standard to achieve convergence between Australian and New Zealand Accounting Standards. There is no financial impact.

Voluntary changes in accounting policy

The Board has not made any voluntary changes in accounting policy during the financial year.

Future impact of Australian Accounting Standards not yet operative

The Board cannot early adopt an Australian Accounting Standard unless specifically permitted by TI 1101 Application of Australian Accounting Standards and Other Pronouncements. Consequently, the Board has not applied early any of the following Australian Accounting Standards that have been issued that may impact the Board. Where applicable, the Board plans to apply these Australian Accounting Standards from their application date:

Note 37. Explanatory Statement

Significant variations between estimates and actual results for income and expense are shown below. Significant variations are considered to be those greater than 10% and \$100,000.

Significant variances between estimated and actual result for 2012

	2012 Estimate \$000	2012 Actual \$000	Variation Over/(Under) \$000
Supplies and services	9,384	10,505	1,121
Accommodation expenses	2,734	12,395	9,661
Other Expenses	559	1,309	750
Grants and subsidies	-	124	124
Donated works of art	400	356	(44)
Bequest trust and special purpose funds contributions received	1,222	836	(386)
Bequest trust and special purpose funds interest received	888	1,216	328

Supplies and services

Over spend in this area is due to increased activities, such as international freight, involved in delivering Picasso to Warhol, the first of the Museum of Modern Art Exhibition Series this year.

Accommodation expenses

Repairs and maintenance costs related to the upgrading the 30 year old Gallery façade is mainly responsible for the variance in this area.

Other expenses

The unfavourable variance is due mainly to unrealised losses of \$750,000 relating to the re-valuation of shares donated in the previous year and write off of artworks of \$160,000.

Grants and subsidies

Grant received were for upgrading the 30 year old lighting system of the Gallery.

Donated works of art

The estimate for donated works of art is based on an average of past contributions. The level of donated works from year to year does not necessarily follow trends, as these works are donated at irregular intervals and are often the result of long-standing relationships between the donors and the Art Gallery of Western Australia.

Bequest trust and special purpose funds contributions received

Contributions received were lower than budgeted due to timing, but are still expected.

Bequest trust and special purpose funds interest received

The favourable variance in interest revenue is mainly attributed to a steady increase in interest rates during the year coupled with higher than expected interest-earning contributions. The budget was set conservatively with no increases in interest rates factored in.

Significant variances between actual results for 2011 and 2012

	2012	2011	Variance
	\$000	\$000	Over/(Under)
			\$000
<u>Expenses</u>			
Employee benefits expense	5,204	4,673	531
Supplies and services	10,505	3,565	6,940
Accommodation expenses	12,395	3,115	9,280
Other expenses	1,309	165	1,144
<u>Income</u>			
User charges and fees	1,026	1,334	(308)
Sponsorship	795	1,013	(218)
Donated works of art	356	790	(434)
Bequest trust and special purpose funds contributions received	836	1,235	(399)
Other revenue	503	3,409	(2,906)

Employee benefits expense

The increase in this area is due to hiring of extra staff, required within the gallery and administratively during the Victoria and Albert, and the Museum of Modern Art exhibitions.

Supplies and services

The increase is due to the insurance premium for artworks and increased activities involved in delivering Picasso to Warhol, the first of the Museum of Modern Art Exhibition Series this year.

Accommodation expenses

Repairs and maintenance costs related to the upgrading the 30 year old Gallery façade is mainly responsible for the variance in this area.

Other expenses

The unfavourable variance is due mainly to unrealised losses of \$750,000 relating to the re-valuation of shares donated in the previous year.

User charges and fees

The decrease was caused by lower admissions income collected from the Victoria and Albert exhibition.

Sponsorship

A larger number of sponsors in both regular and in kind sponsorship are responsible for the variance in this area.

Donated works of art

The level of donated works decreased from the total donated in the previous year. The level of donated works from year to year does not necessarily follow any trend. The donations are received at irregular intervals and do not follow any particular pattern.

Bequest trust and special purpose funds contribution

2011 contributions were higher due to increased fund raising from the private sector towards Tomorrow Fund, a legacy fund for the acquisition of new contemporary works for the Art Gallery of Western Australia.

Other revenue

In 2011, a large donation of listed shares was received as part of ongoing works with the Tomorrow Fund. There was no such donation in 2012.

Note 38. Financial instruments

(a) Financial risk management objectives and policies

Financial instruments held by the Board are cash and cash equivalents, restricted cash and cash equivalents, loans and receivables, list shares and payables. The Board has limited exposure to financial risks. The Board's overall risk management program focuses on managing the risks identified below.

Credit risk

Credit risk arises when there is the possibility of the Board's receivables defaulting on their contractual obligations resulting in financial loss to the Board.

The maximum exposure to credit risk at the end of the reporting period in relation to each class of recognised financial assets is the gross carrying amount of those assets inclusive of any provisions for impairment as shown in the table at Note 38(c) 'Financial Instrument Disclosures' and Note 22 'Receivables'.

Credit risk associated with the Board's financial assets is minimal because the main receivable is the amounts receivable for services (holding account). For receivables other than government, the Board trades only with recognised, creditworthy third parties. The Board has policies in place to ensure that sales of products and services are made to customers with an appropriate credit history. In addition, receivable balances are monitored on an ongoing basis with the result that the Board's exposure to bad debts is minimal. At the end of the reporting period there were no significant concentrations of credit risk.

Liquidity risk

Liquidity risk arises when the Board is unable to meet its financial obligations as they fall due. The Board is exposed to liquidity risk through its trading in the normal course of business.

The Board has appropriate procedures to manage cash flows including drawdowns of appropriations by monitoring forecast cash flows to ensure that sufficient funds are available to meet its commitments.

Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates and interest rates will affect the Board's income or the value of its holdings of financial instruments. The Board does not trade in foreign currency and is not materially exposed to other price risks. The Board is not significantly exposed to market risk. The Board has no borrowings or finance leases. Some cash and cash equivalents are interest bearing and restricted cash and cash equivalents are interest bearing however the exposure to market risk for changes in interest rates is minimal as the Board does not rely on interest income for its principal operating activities. Refer to interest rate sensitivity analysis table at note 37(c).

(b) Categories of financial instruments

In addition to cash, the carrying amounts of each of the following categories of financial assets and financial liabilities at the end of the reporting period are as follows:

	2012	2011
	\$000	\$000
<u>Financial Assets</u>		
Cash and cash equivalents	7,325	2,026
Restricted cash and cash equivalents	25,024	24,859
Loans and receivables ^(a)	4,937	4,257
Other financial assets	2,425	3,175
 <u>Financial Liabilities</u>		
Financial liabilities measured at amortised cost	5,979	1,296

(a) The amount of loans and receivable excludes GST recoverable from the ATO (statutory receivable).

(c) Financial Instrument Disclosures

Foreign Exchange Contracts

At the reporting date, the Art Gallery has foreign exchange contracts that have been designated as fair value hedges. For forward foreign contracts the fair value is taken to be unrealised gain or loss at period end calculated by reference to the relevant forward rates. Details of the forward exchange contracts outstanding at the end of the reporting period are given below:

Certification of Key Performance Indicators for the year ended 30 June 2012

We hereby certify that the key performance indicators are based on proper records, are relevant and appropriate for assisting users to assess the Board of the Art Gallery of Western Australia's performance, and fairly represent the performance of the Board of the Art Gallery of Western Australia for the financial year ended 30 June 2012.

Fiona Kalaf
Chair, Board of the Art Gallery of Western Australia

Brian Roche
Member, Board of the Art Gallery of Western Australia

Key Performance Indicator Information

The Art Gallery of Western Australia is a statutory authority within the Culture and Arts portfolio, and its annual budget and outcome are included in the budget statements under the outcome for the Department for Culture and the Arts (DCA).

The Gallery services contribute within the portfolio framework primarily to the Government Goal:

“Greater focus on achieving results in key service delivery areas for the benefit of all Western Australians.

The Government Desired Outcome for the Gallery is that:

“Western Australia’s natural, cultural and documentary collections [State Art Collections] are preserved, accessible and sustainable.”

The funds allocated to the Gallery to achieve its outcomes are allocated under the DCA service 4 ‘Art Gallery Services’. Art Gallery Services are identified as:

“Delivery of the State Art Collection and access to art gallery services and programs through visual arts advocacy, collection development, facilities and services. Services ensure that primary access to art, heritage and ideas locally, regionally and internationally are preserved and displayed for future generations.”

Key performance indicators have been developed in accordance with Treasurer’s Instruction 904 to evaluate the Gallery’s performance in achieving the Government Desired Outcome and provide an overview of the critical and material aspects of service provision.

Preservation

Indicator 1: The extent to which the part of the State Art Collection that requires preservation is preserved

An indicator of the level of preservation is the proportion of time that the storage and display environment is not breached.

Key Effectiveness Indicators	2009-10 Actual	2010-11 Actual	2011-12 Actual	2011-12 Target
Proportion of time that the storage and display environment has not been breached	98%	97.5%	96.3%	98%

Explanatory notes

The environment within which artworks are stored and displayed is a principal indicator of the effort being taken to preserve them for future generations. Indicators of the 'storage and display environment' are temperature and relative humidity. The Gallery uses the generally agreed international standards for temperature of 21°C ± 2°C and relative humidity of 50% ± 5% as the benchmarks. In calculating the proportion of time that the storage and display environment has not been breached, that is the proportion of time the humidity and temperature has been within the accepted standards, the Gallery uses a composite average of the environmental data from the three principal storage and display environments within the Art Gallery: the main Gallery, the Centenary Galleries and the Collection Stores. Averages for these are calculated at 99.4%, 98.7% and 97.6% respectively for humidity and 99.4%, 90.9% and 91.8% for temperature. On average the Gallery maintained the storage and display environment within the standards for humidity for 98.6% of the time and temperature for 94% of the time which produces an aggregate total proportion of 96.3% of operational hours when the storage and display environment was maintained within the standards.

Accessibility

Indicator 2.1: The extent to which art gallery services are accessible

An indicator of accessibility is the number of visitors to the Gallery per head of population of Western Australia.

Key Effectiveness Indicators	2009-10 Actual	2010-11 Actual	2011-12 Actual	2011-12 Target
Number of accesses	467,541	526,264	495,505	450,000
Number of accesses to State Art Collection per capita. Population (Per Capita) based on ABS data table for Western Australia at time of annual reports: 2009-10 = 2,270,300; 2010-11 = 2,317,100. 2011-12 = 2,387,200 (based on ABS 3101.0 Dec. 2011, released 26 June 2012).	206 per 1,000	227 per 1,000	208 per 1,000	194 per 1,000

Explanatory notes

Accesses are determined by the number of attendances, Internet user sessions (website hits) and attendances at venue hire functions. Accesses are expressed per capita, based on the population of Western Australia. The number of Gallery visitors was 318,833 and 10,711 people attended functions for a total of 329,544 attendances. The website unique visitors totalled 165,961.

The Gallery had projected lower attendance during the year because of construction work on the façade which began in April 2011. However, the overall number of visitors was 4.5% less than the previous annual visitation of 345,171. The website usage was almost the same as in 2010-11.

Indicator 2.2: The extent to which art gallery services are accessible

An indicator of the effectiveness of the Gallery in providing for the enjoyment and cultural enrichment of the people of Western Australia is shown by client satisfaction with Gallery art services. The Gallery engages a market research firm to survey customers.

Key Effectiveness Indicator	2009-10 Actual	2010-11 Actual	2011-12 Actual	2011-12 Target
Percentage of clients satisfied with the services associated with accessing the State Art Collection.	88.7%	95.3%	96%	88%

Explanatory notes

Client satisfaction with art gallery services is primarily measured by surveying visitors to the Gallery to determine how satisfied they have been with the displays and programs. Satisfaction is measured by a statistically valid survey. The market research consultants have advised that the sample used 'provides a maximum survey error of ±3.11% at the 96% confidence level'. The customer satisfaction survey is conducted by Morris Hargreaves McIntyre. The question answered by customers which provides the percentage satisfaction rating was:

'Thinking about your visit to Art Gallery of Western Australia today, including the exhibitions on display and the facilities provided, how satisfied or dissatisfied were you with the experience overall?

Overall satisfaction was high with 57% 'very satisfied' with their visit to the Art Gallery and 39% were 'quite satisfied' (so net satisfaction of 96%). The 2011-12 result shows a significant overall increase in satisfaction rates with none of the visitors expressing dissatisfaction with their visit. A total of 4% of visitors were neutral.

Sustainability

Indicator 3: The extent to which the State Art Collection and art gallery services are sustainable

The sustainability measure has increased from 0.55% in 2010-11 to 0.88% in 2011-12.

Key Effectiveness Indicator	2009-10 Actual	2010-11 Actual	2011-12 Actual	2011-12 Target
Value of State Art Collection renewal, content development and/or expansion as a proportion of Collection value.	0.45%	0.55%	0.88%	0.75%

Explanatory notes

The Gallery is sustainable if, on an ongoing basis, it has the capacity to build its Collection, develop content for publications, displays and exhibitions and maintain the physical integrity of the State Art Collection. A gauge of this sustainability is represented by the direct costs associated with these activities as a proportion of the total value of the State Art Collection. As the value of the Collection increases, if the funds available to maintain these activities remain stagnant or are reduced, the sustainability indicator decreases. The sustainability indicator is based on a 5-year rolling average of the annual direct costs as a proportion of the value of the State Art Collection.

Efficiency indicators

Indicator: The average cost of art gallery services per Art Gallery access.

Key Efficiency Indicator	2009-10 Actual	2010-11 Actual	2011-12 Actual	2011-12 Target
Average cost of art gallery services per Art Gallery access.	\$24.22	\$24.82	\$43.31	\$42.73

Explanatory notes

The average cost relates the level of resource input to the services provided. This indicator is arrived at using the following formula:

$$\frac{\text{Total cost of services}^*}{\text{Number of accesses}}$$

*Note. The total cost of services excludes DCA overheads.

The increase in the average cost of art gallery services in 2011-12 is mainly due to the Art Gallery's Museum of Modern Art Exhibition Series.

Ministerial directives

No ministerial directives were received during the year.

Other financial disclosures

Pricing policies

Most Gallery exhibitions are presented free of charge to the public. When major exhibitions are mounted as a joint venture with another institution, the ticket cost for such exhibitions is based on a contractual negotiation with the joint venture partner and contributes towards the cost of the exhibition.

Capital works

The Art Gallery's capital works program includes projects that are funded from Government capital appropriations. Details of the major completed works and purchases are outlined below.

Completed capital projects

The Gallery has continued with its capital works and maintenance program during 2011-12 as follows.

The Gallery's aged telephone service was replaced with a VOIP telephone system providing cost savings and better integration with existing network systems, including e-mail.

In August 2011 the Gallery saw the completion of the installation of two new gas Steam Generators. The new gas generators are more efficient and effective, significantly reducing the cost of running in comparison to the two old electric generators which ran continuously with no back-up system. The Gallery is now able to use one generator to provide enough energy and provides a back-up generator if required.

Capital works in progress

The Façade Maintenance Project commenced in the 2011-12 and will be completed in 2012-13 when the canopies and LED screens are installed.

The Gallery's upgrade for the new lighting system throughout the main building will be completed in 2012-13.

Your Collection 1800 – Today

December 2011

The relocation of the State Art Collection (renamed 'Your Collection') to the ground floor of the Gallery marked a dynamic new initiative presenting the State Art Collection for the first time integrated chronological displays. These new displays, developed by the curatorial and public programs staff, opened in December 2010 with 'Your Collection 1800 – 1920' located in the Centenary Galleries. These works range from the age of discovery, Australian colonial times, modernity, land and landscape to contemporary art produced in the 21st century.
