

DIVISION 10: OFFICE OF THE INFORMATION COMMISSIONER —

[Supplementary Information No A28.]

Question: Mr P.J. Rundle asked for information on whether members of the public or others, such as electorate officers, were able to attend or did attend the second FOI in WA Conference in 2019.

Answer: The event was advertised as an event for WA State and local government officers.

Some presenters, who attended for part or whole of the conference, were not WA State and local government officers. These included, Dr Geoff Gallop; Joanne Kummrow (OVIC) and two officers from Objective Corporation.

A number of officers, who are privately employed but embedded in WA State government offices to deal with records and FOI related matters, attended.

Electorate officers were not excluded from attending the conference. However, no registrants for the event specifically identified as being an electorate officer.
