

TRANSPORT — CGM COMMUNICATIONS — FREIGHT AND LOGISTICS COUNCIL

4030. Mrs L.M. Harvey to the Minister for Transport:

I refer to the work undertaken by CGM Communications for the Freight and Logistics Council, and I ask:

- (a) what work is being undertaken by CGM Communications and are there terms of reference for the work being undertaken and if so, will the Minister table the terms of reference;
- (b) was the contract for the work subject to a full tender process and if not, why not; and
- (c) what is the value of the contract?

Ms R. Saffioti replied:

The Freight and Logistics Council is an association incorporated under the Associations Incorporated Act 2015. It is an independent legal entity with its own legal capacity to contract.

As such, the Government does not have direct oversight of operational decisions and work undertaken by the FLC.
