

JANUBURU SIX SEASONS DEVELOPMENT, BROOME - LANDCORP BLOCKS

288. Hon KEN BASTON to the parliamentary secretary representing the Minister for Planning and Infrastructure:

I refer to the brochure titled “Sustainability and LandCorp”, which states that LandCorp has a commitment to balanced financial, social and environmental outcomes. How does the minister reconcile these commitments and the fact that the government’s sustainability strategy strongly embraces affordability with claims by Broome developers that the prices allocated to blocks in LandCorp’s Januburu Six Seasons Estate development exceed the prices of other similar lots in Broome by at least \$26 000?

Hon ADELE FARINA replied:

I do not have an answer at this time. Given the detail required I ask that the member put the question on notice.
