

ESPERANCE CIVIC CENTRE — LEAD CLEAN-UP

1007. Hon KEN TRAVERS to the minister representing the Minister for Transport:

- (1) Was the Esperance Civic Centre cleaned up as part of the Esperance lead clean-up?
- (2) Did this clean-up include the roof space at the centre?
- (3) If no to (2), why was it not cleaned?
- (4) Will the minister table all documents relating to the testing and sampling of all areas of the building before and after the clean-up?
- (5) If no to (4), why not?

Hon SIMON O'BRIEN replied:

I thank the honourable member for notice of the question. The Department of Transport advises —

- (1) Yes.
- (2) No.
- (3) The roof space was thoroughly sampled, tested and analysed, and the results showed that it was not affected by lead contamination from the port or rail.
- (4) The written approval of the shire as the owner of the property is required for these documents to be released.
- (5) Not applicable.
