

PUBLIC BOAT RAMPS - EXMOUTH

495. Hon KEN BASTON to the parliamentary secretary representing the Minister for Planning and Infrastructure:

I refer to the upgrading of the public boat ramps at Tantabiddi and Bundegi to improve access to Exmouth waters, listed as a major initiative in the 2006-07 budget.

- (1) When will construction commence, and what is the anticipated completion date of each ramp?
- (2) How much funding has been allocated for each ramp?

Hon ADELE FARINA replied:

I thank the member for some notice of this question.

- (1) The Shire of Exmouth is responsible for project managing these works with funding allocated from the state budget. Construction at Bundegi is anticipated in early 2007, followed by construction at Tantabiddi.
- (2) The break-up of the funding of \$1.5 million is subject to the detailed design of each ramp, and it is being managed by the shire.
