

CLANDESTINE DRUG LABORATORIES — STATISTICS

396. Mrs M.H. ROBERTS to the Minister for Police:

I have a supplementary question. Will the minister undertake to be accountable and provide a regular update of the number of clandestine laboratories that are being uncovered by police? Alternatively, will she get police to provide that information on a weekly basis, as they used to?

Mrs L.M. HARVEY replied:

I have regular briefings with the police on a number of matters.

Mrs M.H. Roberts interjected.

The SPEAKER: Members!

Mrs L.M. HARVEY: As part of those briefings, I am informed and updated on crime statistics for each month in arrears. As those statistics become available, they are available on the police website. I would suggest that the member checks the police website if she wants monthly updated crime statistics. As I mentioned to the member before, I am happy to provide to her the specific information she requested.
