

BURSWOOD STADIUM — PUBLIC TRANSPORT INFRASTRUCTURE

4964. Hon Ken Travers to the Minister for Finance representing the Minister for Transport

I refer to the previous advice of the Public Transport Authority that the estimated cost for public transport infrastructure to service the new Burswood Stadium is \$300 million, and ask —

- (1) What infrastructure is included in this estimation?
- (2) Does this estimation relate only to infrastructure in the immediate vicinity of the stadium or does it include changes to the rail network north of the Swan River?
- (3) If yes to (2), what changes are required?
- (4) When does the Government expect to make a final decision on what infrastructure is required and its estimated cost?

Hon SIMON O'BRIEN replied:

The Public Transport Authority advises as at 8 November 2011:

- (1)–(4) The upgrade will include road, rail and bus infrastructure. Cabinet will make a decision after all planning work is complete.
