

WATER QUALITY — LAKE JOONDALUP

199. Mr C.J. TALLENTIRE to the Minister for Environment:

As a supplementary question, how can the minister claim that the site was cleaned up when material was left on site?

Mr A.P. JACOB replied:

Member, that is not what I said. I just gave the member a run-down of what has happened with the Department of Environment and Conservation in tackling the issue. I gave the member quite a comprehensive answer to the question. It was a very cute supplementary question.
