

SCHOOLS — VASSE PRIMARY SCHOOL

3992. Ms L. Mettam to the minister representing the Minister for Education and Training:

I refer to the rapidly growing number of students in the suburb of Vasse, and I ask:

- (a) what is the current number of enrolled students at Vasse Primary School;
- (b) what is the expected number of enrolments in 2019; and
- (c) what is the timeframe for the development of a second campus or primary school in the Vasse precinct (given land for this project was acquired under the former Liberal Government)?

**Mr P. Papalia replied:**

- (a) 772 as at the census date in semester 1, 2018. These figures comprise kindergarten and full-time students.
- (b) 770 students.
- (c) On 17 April 2018, the Western Australian Planning Commission granted approval for the Vasse Development Area Development Guide Plan, which confirmed a new location of the new primary school site. The Department of Education has not commenced discussions with the landowner regarding acquiring the site. The timeframe for the development of a second primary school in the Vasse area has not been determined. The Department will continue to assess the school's projected student enrolments to determine when a new school is required in the Vasse precinct.

SCHOOLS — DUNSBOROUGH PRIMARY SCHOOL — ENROLMENTS AND CANTEEN

3993. Ms L. Mettam to the minister representing the Minister for Education and Training:

- (1) What is the current number of enrolled students at Dunsborough Primary School?
- (2) What is the expected number of enrolments at the school in 2019?
- (3) Does the existing school canteen meet Australian Health Standards and regulations with respect to the number of students it services?
- (4) What consideration is being given to the expansion of the canteen and the undercover area to accommodate the growing number of students:
  - (a) is there a timeframe for this expansion?

**Mr P. Papalia replied:**

As the Member is aware, I had the pleasure of opening the new administration building at Dunsborough Primary School on 20 February 2018. During my visit to the school that day I was able to see the canteen facility firsthand.

- (1) 761 students were enrolled at the time of the census date in Semester 1, 2018. This figure comprises kindergarten and full-time students.
- (2) 773.
- (3) Yes.
- (4) A feasibility study of the canteen and covered area has been prepared and will be used for funding consideration when future capital works programs are compiled.
  - (a) No.
