

INTERNATIONAL SCHOOL OF WESTERN AUSTRALIA — DOUBLEVIEW PRIMARY SCHOOL —
STUDENT ENROLMENTS

215. Hon Alison Xamon to the Minister for Education and Training:

I refer to the International School of Western Australia that will be co-located with the Doubleview Primary School site, and I ask:

- (a) will the Minister please provide a year-by-year breakdown of the expected enrolments for the International School of Western Australia over the next ten years; and
- (b) will the Minister please provide a year-by-year breakdown of the expected enrolments for Doubleview Primary School over the next ten years?

Hon Sue Ellery replied:

- (a) The Department of Education does not prepare student enrolment projections for non-government schools.
- (b) The estimated student enrolment projections for Doubleview Primary School are:

| Year | Number of Students |
|-------------|---------------------------|
| 2017 | 419 |
| 2018 | 431 |
| 2019 | 441 |
| 2020 | 455 |
| 2021 | 462 |
| 2022 | 476 |
| 2023 | 490 |
| 2024 | 503 |
| 2025 | 518 |
| 2026 | 534 |

The 2017 number is the actual enrolment and the 2018–2026 numbers are projected enrolments.

The student enrolment projections for all public schools are prepared annually and are subject to change as new information becomes available. Student enrolment projections are based on the enrolment trends at the school and projected student growth estimates provided by the Department of Planning. As the projection period extends into the future, the projected enrolments become more indicative.
