

OAKAJEE PORT AND RAIL PROJECT

202. Hon JON FORD to the Minister for Commerce:

I refer to the Oakajee Port and Rail project.

- (1) How much steel fabrication is estimated to be required in the construction of this project?
- (2) How much of this work is estimated will be done in Western Australian workshops?
- (3) How much of this work is estimated will be done in other Australian workshops?
- (4) How much of this work is estimated will be done overseas?

Hon SIMON O'BRIEN replied:

I thank the honourable member for some notice of question.

- (1) The Oakajee Port and Rail project is currently engaged in a number of engineering and design-related feasibility studies that will underpin a decision to proceed. As such, it is not yet possible to provide a useful estimate of steel fabrication requirements.
- (2)–(4) Not applicable.
