

ATTORNEY GENERAL — ENERGYSAFETY — PRIVATELY-OWNED POWER POLE INSPECTION

5575. Mr W.J. Johnston to the minister representing the Attorney General:

Since 1 July 2015, how many times has EnergySafety physically inspected a privately-owned power pole, and where are these poles located?

**Mrs L.M. Harvey replied:**

This matter falls under the portfolio responsibility of the Minister for Commerce and does not relate to the portfolio of the Attorney General.
