

WAROONA-YARLOOP BUSHFIRES — FERGUSON REPORT — TRAFFIC MANAGEMENT

**453. Ms M.M. QUIRK to the Minister for Police:**

I refer to ongoing issues with traffic management identified in the Ferguson inquiry and its findings that there were many examples of inflexible impractical traffic management by police during bushfires.

- (1) What training is given to police personnel staffing vehicle control points at bushfires?
- (2) Can the minister explain why this is still a problem when the Keelty inquiry first identified this as an issue in 2011?
- (3) Given the latest adverse findings on top of previous findings, what does the minister intend to do?

**Mrs L.M. HARVEY replied:**

I thank the member for the question.

- (1)–(3) Obviously the government has just received this report—the Ferguson inquiry. We are currently going through that and reviewing the recommendations and we will table our response in due course in Parliament.
