

MOTOR VEHICLE ACCIDENT INJURIES — NO-FAULT DISABILITY  
INSURANCE RESEARCH PROJECT

**1082. Hon SUE ELLERY to the Minister for Disability Services:**

- (1) What is the progress of the research project undertaken by the Insurance Commission of Western Australia and the University of Western Australia on a no-fault disability insurance based scheme in Western Australia for those injured in motor vehicle accidents?
- (2) If a report has been prepared, will the minister table it; and, if not, why not?

**Hon SIMON O'BRIEN replied:**

I thank the member for some notice of this question.

- (1) The Disability Services Commission is aware of, and has participated in, this research being undertaken by the Insurance Commission of WA and the University of WA. The commission is unable to comment on the progress of the research as the Insurance Commission of WA will be reporting on the outcomes of the research to the Treasurer, who has portfolio responsibility for the Insurance Commission of WA.
- (2) The commission anticipates that a report will be prepared by the Insurance Commission of WA. The tabling of this report will be a decision for the Treasurer.
