

WATER CORPORATION — BRIDGE REPAIRS — SHIRE OF HARVEY

223. Hon SALLY TALBOT to the minister representing the Minister for Water:

- (1) Is the Minister for Water aware of the need for urgent repairs in the Shire of Harvey to bridges on Rodgers, Johnston and Brockman Roads, and Ninth Street?
- (2) If yes to (1), what action will the minister take to facilitate these urgent repairs with minimal impact on residents and industry in the Shire of Harvey?
- (3) When will the urgent repairs be completed?

Hon KEN BASTON replied:

On behalf of the Minister for Water, I thank the honourable member for some notice of this question.

- (1) Yes.
- (2) I am advised that Main Roads Western Australia has recently reviewed these bridges and posted a reduced load rating to ensure the ongoing safety of all bridge users. The Water Corporation is working closely with Main Roads WA to determine the remedial action required for each bridge. In the meantime, the Water Corporation is working with local government to determine alternative routes to minimise the impact on bridge users and the local community.
- (3) The scope of works needs to be determined before any timing can be confirmed.
