

PINJARRA PACEWAY — STALLS

410. Hon COLIN HOLT to the minister representing the Minister for Racing and Gaming:

I refer to the new stalls completed at Pinjarra paceway in December 2018.

- (1) Why is there a delay in opening the new stalls?
- (2) How much was spent on the new stalls and how much of the budget remains?
- (3) If funds remain, what is the intention of Racing and Wagering Western Australia for the leftover funds?
- (4) If further works are required, when can the Pinjarra Harness Racing Club expect these to be completed?

Hon ALANNAH MacTIERNAN replied:

I thank the member for the question. The following information has been provided by the Minister for Racing and Gaming.

- (1) The delay in opening of stalls is due to a delay in the completion of the car park. The requirement to redesign the stormwater treatment from the car park has caused a delay in construction.
- (2) The total project cost \$3 110 744 and no moneys will be remaining once the car park is completed.
- (3) Not applicable.
- (4) The works will be completed by the end of May 2019.
