

JOONDALUP RAIL LINE — CAR PARK NOISE

4714. Hon Ken Travers to the Minister for Finance representing the Minister for Transport

- (1) Has the Minister received any complaints about noise since the new car parks were built on the Joondalup rail line?
- (2) If yes to (1), has the Minister raised those complaints with the relevant department?

Hon SIMON O'BRIEN replied:

- (1)–(2) While there is an estimated 285 000 people living in the north–west sub-region (which includes Joondalup and Wanneroo) only one complaint has been received regarding noise alongside the Joondalup rail line since new car parks were built by the Liberal–National Government. The Member would be aware that the car parking bays have been built as the result of an election commitment by the Liberal–National Government to build 3 000 parking bays along the north–south rail line. This commitment was necessary as a result of the previous Labor Government, of which the Member was part, neglecting parking needs along the rail line over its many years in government..
