- (1)
 - (a) No, the evaluation will not be complete until final bids are received and assessed.
A procurement options analysis concluded that a public private partnership has the potential to offer value for money.
 - (b) No, the evaluation will not be complete until final bids are received and assessed.
A procurement options analysis concluded that a public private partnership has the potential to offer value for money.
 - (c) A procurement options analysis concluded that a public private partnership was not the recommended procurement option and the facility is being procured under a publicly financed model.
 - (d) A procurement options analysis has concluded that a public private partnership was not the recommended procurement option.
 - (e) No, the evaluation will not be complete until final bids have been assessed. A procurement options analysis concluded that a public private partnership has the potential to offer value for money.
 - (f) No, the evaluation was ceased following Government's decision not to use private finance for the project.
 - (g) The procurement of the non clinical services at Fiona Stanley Hospital is a service delivery contract, not a public private partnership, because it does not involve the construction of the hospital. The evaluation of private sector bids has been completed and a preferred bidder has been selected.
