

POLICE PORTFOLIO — LEGISLATION

431. Mrs M.H. ROBERTS to the Minister for Police:

I have a supplementary question. Given that the minister is unable to say what legislation she will be bringing forward in the next seven weeks, can she at least advise whether she intends to introduce secondary supply of alcohol legislation?

Mrs L.M. HARVEY replied:

The member may not have been listening when I answered the question the first time.

Several members interjected.

The SPEAKER: Thank you, members!

Mrs L.M. HARVEY: The member will be informed when my legislation is ready to be brought to the house.

The SPEAKER: Member for West Swan, I formally call you to order for the first time today. The standard instruction to all members is that, if they want to make a point in this place, the better way to do it is to get to their feet and ask a question. That concludes question time.
