

GREAT KIMBERLEY MARINE PARK

2009. Mr C.J. Tallentire to the Minister for Environment:

With regard to the Marine Parks and Reserves Authority, I ask, how much of the Great Kimberley Marine Park will be sanctuary zones where there will be prohibition on damaging extractive industries and fishing?

**Mr A.P. Jacob replied:**

It is not yet possible to determine how much of the Great Kimberley Marine Park will be sanctuary zones because planning for the marine park is still underway. A zoning scheme for the marine park will be determined through the management planning process.
