

STATE BUDGET 2016–17 — ROAD TRAUMA TRUST ACCOUNT

**334. Mr R.F. JOHNSON to the Minister for Road Safety:**

I have a supplementary question. Apart from the cost shifting, where has the \$10 million gone that is missing from the budget papers?

**Mrs L.M. HARVEY replied:**

I am sure that the member for Hillarys will participate in budget estimates discussions. During estimates I will be providing, as I always do, a list of all the individual projects. I would love nothing better than to have memorised all the individual projects that have been funded through the RTTA, but I cannot. There are too many, member for Hillarys. There are too many projects for me to remember them all and to itemise them all for him. He will have to wait for estimates.
