

STATE FORESTS — FIREARMS HUNTING

345. Mr C.J. TALLENTIRE to the Minister for Environment:

I have a supplementary question. Given the high level of community angst about this issue, why can the minister not indicate now whether he will be allowing shooters into our state forests and public lands?

Mr A.P. JACOB replied:

The very next sitting day of this house is next Tuesday, and I will be bringing down my response to that committee report next Tuesday.
