

ALBANY HEALTH CAMPUS — ACCREDITATION

**912. Hon COLIN HOLT to the parliamentary secretary representing the Minister for Health:**

I refer to question without notice 900, asked yesterday by me.

- (1) On what date did the Albany Health Campus first get assessed under the “National Safety and Quality Health Service Standards: Second edition”?
- (2) Were any issues raised by the assessors at that time; and, if so, what were those issues?
- (3) Has the Albany Health Campus had any further assessments since that initial assessment?
- (4) Did the Albany Health Campus operate at any time without that accreditation?

**Hon ALANNA CLOHESY replied:**

I thank the honourable member for some notice of the question. I am advised of the following.

- (1) WA Country Health Service great southern, including Albany Health Campus, was first assessed for accreditation under version 2 of the “National Safety and Quality Health Service Standards” between 18 and 22 March 2019.
- (2) The initial assessment identified some areas for improvement relating to governance and leadership.
- (3) WA Country Health Service great southern, including Albany Health Campus, underwent reassessment on 24 and 25 July 2019 against the areas identified during the initial assessment in March.
- (4) Albany Health Campus has been fully accredited throughout this process and following reassessment remains fully accredited for a further three years.
