

ROADS — WANNEROO ROAD–JOONDALUP DRIVE INTERSECTION — UPGRADE

3436. Mrs L.M. Harvey to the Minister for Transport; Planning; Lands:

With regard to the State Government's commitment to spend \$50 million to upgrade the intersection of Wanneroo Road and Joondalup Drive, I ask:

- (a) What services (such as power lines, sewerage, water, telecommunications) will need to be relocated as part of this project;
- (b) What responsibility will Main Roads WA be taking on any of those service relocations:
  - (i) Is the \$50 million project cost inclusive of any service relocations by Main Roads WA; and
  - (ii) If not, from where will the costs be funded;
- (c) What service relocations will be required by other agencies, departments and/or parties:
  - (i) Can you advise the cost of such service relocations;
- (d) Are there any costs associated with land acquisition for the project:
  - (i) If so, what are those costs; and
  - (ii) If so, which State Government departments or agencies will be required to wear that cost; and
- (e) What is the total additional cost, on top of the \$50 million commitment, to cover land acquisition and service relocation for the Wanneroo Road and Joondalup Drive interchange?

**Ms R. Saffioti replied:**

- (a) This will be determined by the detailed design following contract award.
  - (b) Main Roads contractors will be responsible for any relocations required as part of the project.
    - (i) Yes.
    - (ii) Not applicable.
  - (c) Nil.
    - (i) Not applicable.
  - (d) No privately owned land is required for the project.
    - (i)–(ii) Not applicable.
  - (e) Not applicable.
-
