

SCHOOLS — TRANSPORTABLE CLASSROOMS

2303. Hon Donna Faragher to the Minister for Education and Training:

I refer to Budget Paper No 2, Volume 1, page 320 and the allocation of an additional \$6.1 million for the construction of transportable classrooms, and I ask:

- (a) (a) how many additional transportable classrooms is this funding anticipated to deliver;
- (b) (b) how many transportable classrooms are currently owned by the department;
- (c) (c) are these new transportable classrooms replacing existing transportables or are they in addition to the current total; and
- (d) (d) when are the transportable classrooms expected to be completed and has the department identified those schools who will receive them?

**Hon Sue Ellery replied:**

- (a) 33
- (b) 2 677
- (c) The 33 transportable classrooms being constructed will be an addition to the current total of 2 677.
- (d) The transportable classrooms will be completed and available for installation from 30 November 2019. Applications for additional transportable classrooms for the 2020 school year closed on 9 August 2019 and are currently being assessed.
