

JIGALONG — POWER STATION

**1140. Hon ROBIN CHAPPLE to the Minister for Housing:**

I refer to the joint press release on Wednesday, 7 October 2015, titled “Jigalong power and water upgrades complete”, from both the Minister for Housing and the Minister for Regional Development.

- (1) Were renewable generation possibilities considered in the planning of the new power station?
- (2) If yes to (1), to what extent were they considered?
- (3) If no to (1), why not?

**Hon COL HOLT replied:**

I thank the honourable member for some notice of the question.

- (1) No.
- (2) Not applicable.
- (3) The design of the power stations developed by the Housing Authority enables the addition of a solar renewable component to be incorporated in future should funding become available.
