

NEUROTRAUMA RESEARCH PROGRAM — FUNDING

508. Mrs M.H. ROBERTS to the Minister for Road Safety:

I have a supplementary question. If the minister really cares about these issues, why will she not immediately restore the \$1.7 million that was recommended by the independent and expert Road Safety Council?

Mrs L.M. HARVEY replied:

I think I have just articulated that I am very passionate about this neurotrauma project.

Mrs M.H. Roberts: You've cut the funding by over half. That's not passionate; that's showing them complete disregard!

The SPEAKER: Member for Midland, I call you to order for the first time. Minister, answer the question, please.

Mrs L.M. HARVEY: I am working towards a more sustainable funding model for this program into the future. I remain committed to that.
