

HYDRAULIC FRACTURING — CORYBAS WELL

1484. Hon Robin Chapple to the Minister for Agriculture and Food representing the Minister for Mines and Petroleum:

I refer to the gas frack well known as Corybas near Dongara, and I ask:

- (a) when was the site drilled and fracked;
- (b) was the well at the site leaking methane;
- (c) when did it start leaking methane;
- (d) when was the leak remediated;
- (e) who brought the leak to the attention of the Department of Mines and Petroleum (DMP), and on what date;
- (f) was the remediation checked by the DMP and found to be successful;
- (g) on how many occasions during the lead up to the frack, and subsequently to the current date, have DMP officers visited the site, and on what days; and
- (h) if none to (g), why has the DMP not visited the site?

Hon Ken Baston replied:

- (a)–(h) Please refer to Legislative Council Question on Notice 1205.
