

ROE HIGHWAY EXTENSION — PUBLIC ENVIRONMENTAL REVIEW

700. Hon LYNN MacLAREN to the minister representing the Minister for Transport:

I refer once again to the information published in volume 1 of the Roe Highway extension public environmental review.

- (1) What is the report “DPI 2005a”, noted on page 30, which recommended intersection improvements and congestion management solutions instead of building new infrastructure?
- (2) Will the Minister for Transport table the report?

Hon SIMON O'BRIEN replied:

I thank the honourable member for some notice of this question. I have this answer from the Minister for Transport, who I am sure members will agree is not as helpful as the last bloke we had! But he is still very good.

Hon Ken Travers: We get consensus on that point, up to the point when you say he's still good.

Hon SIMON O'BRIEN: The answer is as follows —

- (1) Full details of the report are provided at the Roe Highway extension public environmental review bibliography, at page 726.
- (2) The report is available on the Department of Transport website as shown on the written copy of the answer, which I will give to the member.
