

HOUSEHOLD HAZARDOUS WASTE PROGRAM

852. Mr P. PAPALIA to the Minister for Local Government:

I have a supplementary question. In light of the 300 per cent increase in the landfill levy, which impacts on the minister's portfolio, does he not think that he should know about this particular impact as well?

Mr G.M. CASTRILLI replied:

The increase in the levy was a decision made by this government. I am a part of this government and I support this government. That is a question that the member should address to the Minister for Environment. However, as I told the member, I will contact WALGA. It has never contacted me on any of those issues.
