

ROTTNEST ISLAND — BOOKING SYSTEM

586. Ms L. METTAM to the Minister for Tourism:

I have a supplementary question. How can the minister expect to grow Western Australia's tourism industry if he cannot fix a simple booking system?

Mr P. PAPALIA replied:

If the Rottnest Island Authority was relying on me to fix the booking system, it would be in a lot of trouble! It is not. Fortunately, it is relying on Oracle. Oracle will get it fixed. It has undertaken to fix it by next week. Thank goodness they are not relying on me to fix it, because I do not know anything about IT!
