Question without Notice 374 — Supplementary Information

HON COL HOLT (South West — Minister for Housing) [5.11 pm]: I would like to provide some advice on question without notice 374, asked by Robin Chapple on Thursday, 7 April. At the time the member raised a point of order about providing a web page as the answer to a question. I have reviewed the answer and I am satisfied that the part of the answer providing a website address is supplementary information to the answer provided.
