

PLANNING — GREENPATCH DEVELOPMENT — ODOUR MODELLING

782. Hon BEN DAWKINS to the minister representing the Minister for Planning:

I refer the minister to my question without notice 755.

- (1) Have there been further odour studies undertaken relating to the Greenpatch development in Dalyellup since the last Water Corporation study of 2007?
- (2) If not, why did someone advise the statutory planning committee that there have been further studies undertaken?
- (3) What is the name and title of the person who advised that further odour studies had been undertaken, and what agency are they from?
- (4) Can the minister table the recording of the meeting of the statutory planning committee dated 18 July 2023 relating to the Greenpatch development; and, if not, why not?

Hon JACKIE JARVIS replied:

I thank the honourable member for the question. The following response has been provided by the Minister for Planning.

- (1) The minutes of the statutory planning committee dated 18 July 2023 confirm that studies have been undertaken in relation to the odour buffer. This refers to modelling undertaken to support amendment 0020/57 to the greater Bunbury region scheme that established the current buffer.
- (2)–(3) Not applicable.
- (4) Meetings of the committee of the Western Australian Planning Commission are not recorded electronically.
