

NATURAL GAS CONSUMPTION — METROPOLITAN

955. Hon Dr Brad Pettitt to the parliamentary secretary representing the Minister for Energy:

Can the Minister please advise of the Perth metropolitan area's annual natural gas consumption for each of the past three financial years, broken down by:

- (a) suburb or postcode; and
- (b) local government area?

Hon Matthew Swinbourn replied:

The State's major gas distributor, ATCO Gas, operates the gas distribution network that supplies homes and businesses in Perth, Geraldton, Kalgoorlie and the south-west of Western Australia.

ATCO is a privately-owned company and does not publish suburb, postcode or local government area information regarding gas consumption within its supply areas.
