

ALBANY HEALTH CAMPUS — RADIATION ONCOLOGY SERVICE

**74. Hon Dr STEVE THOMAS to the Leader of the House representing the Minister for Health:**

I refer to my question on notice 2860 answered on 13 May 2020, which indicated that the Albany radiation oncology service unit would be completed by June 2022, and my question without notice 475, which was answered on 19 May 2022 and stated that the unit would be scheduled for completion in the third quarter of 2022 and was planned for operational use in the fourth quarter of 2022.

- (1) What date is the radiation oncology unit due for completion?
- (2) What date is the radiation oncology unit scheduled to commence operation?
- (3) What clarity and certainty around these dates will the minister provide to cancer patients in the great southern who must travel for four hours by road to either Bunbury or Perth for treatment?

**Hon SUE ELLERY replied:**

I thank the honourable member for some notice of the question.

- (1)–(3) The construction of the Albany radiation oncology unit reached a key milestone this week, with specialist cancer treatment equipment now installed. Practical completion is on track for this quarter, with commissioning to follow.
