

LIVE EXPORT — SHIPS

1279. Hon BEN DAWKINS to the Leader of the House representing the Minister for Ports:

I refer to the total number of times live export ships have arrived at WA ports.

What was the total number of live export ships that arrived in 2017; 2018; 2019; 2020; 2021; 2022 and 2023, year to date?

Hon SUE ELLERY replied:

The answer to this question is that the minister asks that the question be put on notice. That is because, in the four hours we have between the member lodging the question and the government being required to get an answer back from the agency, the member is asking for a lot of information over a six-year period. It is not reasonable to ask that within a four-hour period.
