

PUBLIC HOUSING — NUMBER

1418. Hon Dr Brad Pettitt to the minister representing the Minister for Housing:

I refer to the answers provided to my question on notice 1049 and the fact that answers to part (a), and part (b)–(c), have numbers of public housing tenancies by year, but the figures show a difference of approximately 5000 tenancies, and I ask, what is the reason for this difference?

Hon Jackie Jarvis replied:

As previously provided in question on notice 1049, the data does not include ‘other use’ properties. ‘Other use’ properties include externally managed properties, and other leased residential properties which may be used for a range of services including crisis accommodation and group homes.
