

NATIVE FOREST — JARRAH LOGGING

481. Hon Dr Steve Thomas to the minister representing the Minister for Forestry:

I refer to the Government's announcement of 8 September 2021 on the ending of most native timber harvesting in Western Australia, and I ask what volume of jarrah logs have been extracted to provide access to mining, including for bauxite and mineral sands, in each of the last five years in relation to sawlogs?

Hon Alannah MacTiernan replied:

Year	Jarrah sawlogs (m3)
2016	15,695
2017	8,552
2018	8,522
2019	5,646
2020	10,268
