

CORONAVIRUS — HOSPITALISATIONS AND DEATHS

1829. Hon Ben Dawkins to the Leader of the House representing the Minister for Health:

I refer to the Covid19 vaccination status of Western Australians, and I ask:

- (a) of the total number of Western Australians to die from COVID-19 up to 30 June 2023, how many were:
 - (i) vaccinated;
 - (ii) unvaccinated; and
 - (iii) unknown;
- (b) of the total number of Western Australians to be hospitalised because of COVID-19 up to June 30 2023, how many were:
 - (i) vaccinated;
 - (ii) unvaccinated; and
 - (iii) unknown; and
- (c) of the total number of Western Australians who required intensive care unit care because of COVID-19 up to 30 June 2023, how many were:
 - (i) vaccinated;
 - (ii) unvaccinated; and
 - (iii) unknown?

Hon Sue Ellery replied:

Number of Western Australian residents with confirmed COVID-19 by clinical category and vaccination status, WA, 01/01/2020 to 30/06/2023.

Clinical category	Vaccination status		
	(i) Vaccinated	(ii) unvaccinated	(iii) Unknown
(a) Deaths	720	108	48
(b) Hospitalised	9,360	2,073	715
(c) Intensive Care Unit	291	109	29

Please note that a high proportion of the WA population (>95%) have received at least one dose of a COVID-19 vaccine, therefore interpretation of the data should be considered within this context. Source: COVID-19 vaccine rollout update – 22 January 2022 (health.gov.au).
